Terri,

This is what spike stated,

"Due to feedback we received at the National Johnson - O'Malley Conference earlier this week, we are providing additional guidance on this year's student count. A tribe/school may use the first week of October (10/3-10/7) as their SY 2022-23 JOM student count week, if their school is not in session for any part of the 10/10 - 10/14 week. Also, if you are a tribal contractor, and your tribe has prescribed a SY 2022-23 JOM Student Count week earlier than 10/10 - 10/14, you may use the count week set by your tribe."
