

# ACT AND ACT ASPIRE: INTERPRETING REPORTS

---

ASSESSMENTS FRIDAY FOCUS WEBINAR SERIES#2

DR. ANJU KURIAKOSE

DIRECTOR OF PSYCHOMETRICS

ARIZONA DEPARTMENT OF EDUCATION

## WELCOME TO WEBINAR #2: ACT AND ACT ASPIRE – INTERPRETING REPORTS

---

**This is the second webinar session in this series for the 2022-2023 school year**

This webinar will be recorded and posted on the ADE Assessments webpage. <https://www.azed.gov/assessment>.

Please enter your First and Last Name in the Chat for tracking purposes for the live event.

We will also be capturing the chat questions. If there are questions that were frequently asked or need further clarification, ADE will compile and create an FAQ which will then be posted on our website. The FAQ will only include those questions that are relevant to the webinar topic. ADE will follow up with any other questions via email.

## WELCOME AND OVERVIEW

---

- This session will highlight how you can use some of the information contained in the ACT and ACT Aspire reports.
- We will briefly introduce the webpage that has a lot more information.
- We will go over the student reports and interpret the results.
- We will answer some frequently asked questions.

## Process Steps (Expand for Descriptions)

**Step 1:** Orientation - Learn about test formats and policies; select test dates and provide shipping information; select test staff and set up accounts.

**Step 2:** Configuration - Upload student data records; verify enrollment for test materials.

**Step 3:** Accommodation - Learn about accessibility supports; request accommodations and/or supports; request qualified exceptions to the deadline.

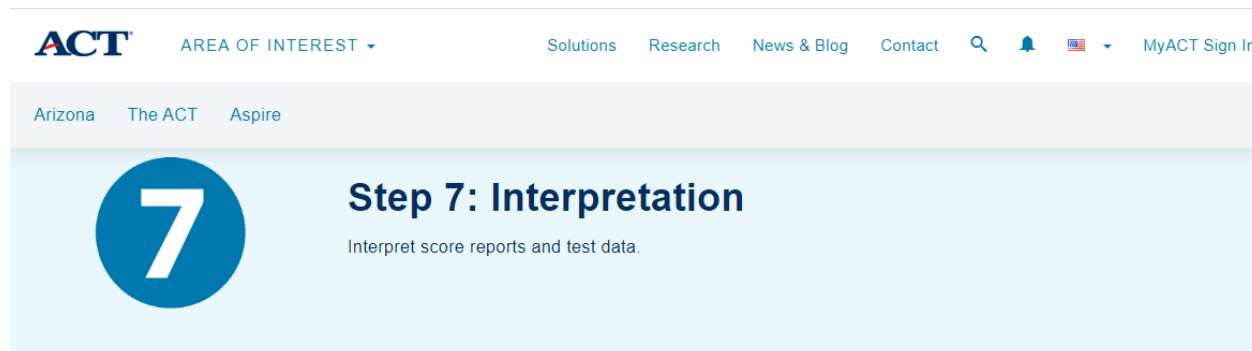

**Step 4:** Preparation - Order test materials; complete non-test activities; provide examinees test prep information; prepare your facility, staff, and materials; update examinee information.

**Step 5:** Administration - Administer the test.

**Step 6:** Transportation: Return test materials.

**Step 7:** Interpretation - Access and understand score reports; share reporting information with examinees.

# ACT ASPIRE

---

- Measures student progress towards college and career readiness.
  - English
  - Reading
  - Mathematics
  - Science
  - Writing
- The scores from each subject are measured against ACT Readiness Benchmarks.
- Identifies whether students are on target to meet the ACT Readiness Benchmarks when they take the test in grade 11.

## ACT ASPIRE SCORES

---

- ❖ ELA scaled score – English, reading, and writing
- ❖ STEM scaled score – Math and Science combined
- ❖ Progress with text complexity
  - ❖ Identifies whether students are making enough progress with reading complex texts to be ready for college and career
- ❖ Composite score – English, Math, Reading, and Science
- ❖ Predicted Scores
  - ❖ Pre-ACT and ACT
- ❖ Percentile Ranks
- ❖ Readiness levels

# ACT ASPIRE - READINESS LEVELS

---

## Readiness levels also reported in four levels

### ❖ **Exceeding**

- ❖ Substantially above the benchmark and have the highest chance to be college and career ready

### ❖ **Ready**

- ❖ Students have met the Benchmark indicator and on target for 50% or higher likelihood of college readiness

### ❖ **Close**

- ❖ Scored below the target but close to the ready category

### ❖ **In need of support**

- ❖ Scored substantially below the readiness indicator

# ACT Aspire Readiness Benchmarks by grade

**Table 1.** ACT Readiness Benchmarks

9	426	425	428	430	428	435
10	428	428	432	432	430	437

The table shows data for all grades and subjects. Students who score at or above these benchmarks are on target for college readiness when they take the ACT test in grade 11.

The readiness benchmarks are on the score reports.

No readiness benchmarks for writing.

# ASPIRE -ISR DETAILS

## Improvement Ideas

### ENGLISH

**Production of Writing:** Practice writing for a variety of purposes. Continue working on developing topics effectively, organizing ideas in logical, cohesive ways, and expressing ideas in a stylistically consistent manner.

**Knowledge of Language:** In your writing, experiment with how word choices affect meaning and how language functions differently in different contexts.

**Conventions of Standard English:** Challenge yourself to write complex sentences, avoiding all errors in sentence construction and using parts of speech and punctuation correctly.

### READING

**Key Ideas & Details:** Read increasingly complex texts from a variety of genres. Work on making and supporting reasonable inferences and on identifying and inferring main ideas, themes, sequences, and relationships.

**Craft & Structure:** As you read, consider the purpose of texts and parts of texts. Also analyze how texts are organized, how authors use point of view, and how authors use words and phrases.

**Integration of Knowledge & Ideas:** Read complex texts from a variety of genres. Analyze how authors present arguments, focusing on strengths and weaknesses. Also, look for connections between and among related texts.

### WRITING SCORE POINT DESCRIPTORS

Use the following rubric descriptions of your writing scores to identify your strengths and areas for improvement.

**Ideas & Analysis:** The response is somewhat appropriate to the task, with an analysis that is oversimplified or imprecise. Implications or complications are only somewhat clear or relevant. Specific details and generalized ideas are somewhat connected.

**Development & Support:** Explanations of ideas are limited, but include some use of supporting reasons and/or relevant examples.

**Organization:** The response exhibits some evidence of organizational structure. Some ideas are logically grouped. Transitions between and within paragraphs sometimes clarify the relationships among ideas.

**Language Use & Conventions:** The response demonstrates some developing ability to convey meaning. Word choice is general and occasionally imprecise. Sentence structures show little variety and are sometimes unclear. Voice and tone are somewhat appropriate for the analytical purpose but are inconsistently maintained. Distracting errors in grammar, usage, and mechanics are present, and they sometimes impede understanding.

### SCIENCE

**Interpretation of Data:** Generate and interpret a greater number and variety of data presentations (scientific tables, line graphs, diagrams). Use trends to extend data in data presentations (interpolation, extrapolation).

**Scientific Investigation:** Generate questions that can be investigated and then design and perform controlled experiments to validly test the questions. Examine complex scientific experiments involving multiple variables.

**Evaluation of Models, Inferences, & Experimental Results:** Compare and evaluate the results of scientific experiments and compare and evaluate competing scientific explanations. Examine ways to improve on scientific experiments and explanations.

### MATH

**Grade Level Progress:** Try completing the "challenge" questions in your textbook for your current math work.

- **Number & Quantity:** Work on applying properties of exponents and rewriting radical expressions in terms of rational exponents. Do the properties of exponents make sense to you? If you make sense of them, they will be easier to use.
- **Algebra:** Work on performing operations on polynomials, solving linear equations and inequalities, and solving quadratic equations. Do algebraic expressions have meaning for you? Interpret expressions as they apply to the real world.
- **Functions:** Practice working with piecewise-defined functions; describe what the graph means in terms of a real-world situation.
- **Geometry:** Work on explaining geometric reasoning related to lines and angles. Derive the formula for the volume of a pyramid.
- **Statistics & Probability:** What could you do if you gave a survey but some people didn't answer the question? Would it matter?

**Integrating Essential Skills:** Continue to strengthen your skills by applying and integrating the mathematics you learned in previous grades.

**Justification & Explanation:** Understand mathematical derivations and justification in your textbooks. Know the concepts behind math terms and why procedures work.

**Modeling:** Find some real-world situations and create models to describe and predict information.

Progress with Text Complexity      Sufficient Progress: **Yes**  
 Progress Toward Career Readiness      You are likely to obtain a **Silver** level on the ACT NCRC in the 11th grade.

**ACT Readiness Level:** Based on the test score and performance level cut scores, your performance can be classified into one of these levels: Exceeding, Ready, Close, In Need of Support.

**Score Range:** Test scores are estimates of your educational development. Think of your true achievement on this test as being likely within the Score Range.

**National Percentile Rank:** The percentage of other grade 9 students in the nation who received a score that is the same as or lower than yours.

The ranks show how this group performed in comparison to other grade 9 students in the nation.

For example, if the median Reading score is at the 38 percentile, the typical student in this group achieved as well as or better than 38% of the students in the nation.

## ELA

423.6

Range: 403-449

English, Reading and Writing Combined Score

The ELA (English Language Arts) score represents your group's overall performance on the English, Reading and Writing tests. The ACT Readiness Benchmark for ELA indicates whether students are on target to meet ACT's College Readiness Benchmark in ELA when they are in 11th grade.

Percent and Count of Students Meeting/Below Benchmark

The ability to communicate thoughts and ideas clearly and to read, understand, and apply critical analysis to a range of texts is foundational to academic success in all subjects.

## PROGRESS WITH TEXT COMPLEXITY

33%

Sufficient Progress

Students must read and understand increasingly complex texts to prepare for the reading demands of college and career. Examples of factors that contribute to text complexity are vocabulary level, sentence structure, and rhetorical structure. The reading test measures progress with text complexity by assessing understanding of texts from a range of complexity levels.

Progress Distribution: Percent and Count

In order to read complex texts, students need reading experiences with increasingly complex texts from a variety of genres across disciplines. Reading routines should include careful reading of challenging texts with a focus on problem-solving unfamiliar language and concepts that are central to the meaning.

# ASPIRE REPORTS - SUPPLEMENTAL SCORES SUMMATIVE

## STEM 422.1

Range: 400-455

Science and Math Combined Score

The STEM (Science, Technology, Engineering and Math) score represents your group's overall performance on the Science and Math tests. The ACT Readiness Benchmark for STEM indicates whether students are on target to meet ACT's College Readiness Benchmark in STEM when they are in 11th grade.

Percent and Count of Students Meeting/Below Benchmark

Strong science and math skills are important for STEM majors and could lead to a rewarding STEM career.

Help your students prepare by encouraging them to take challenging high school or vocational courses in science and math. This will improve their opportunities to pursue STEM careers in a wide variety of industries, such as Health Care, Engineering, Education and Technology.

## PROGRESS TOWARD CAREER READINESS 422.3

Range: 400 - 452

Progress Toward Career Readiness is an early indicator of your group's future achievement on the ACT National Career Readiness Certificate (NCRC). The ACT NCRC is an assessment-based credential that documents foundational work skills important for job success across industries and occupations. The distribution below shows how your group's ACT Aspire Composite scores relate to progress toward a Bronze, Silver, Gold, or Platinum level on the ACT NCRC.

Predicted Career Readiness Distribution: Percent and Count

## ABOUT PROGRESS

The progress charts summarize the performances of students in ARIZONA DEPARTMENT OF EDUCATION with respect to the ACT Readiness Levels.

Blue triangles plot average (mean) scores for current students who also have a prior year test score. If blue triangles are not shown, prior year scores are unavailable.

Based on all current students, the blue circle and square plot current year average scores and predicted average scores for future ACT Aspire assessments. For grades 7-10, predicted average 11th grade ACT test scores are presented.

Score projections assume typical academic growth.

## ACT READINESS BENCHMARKS

---

- ❖ The Benchmarks are scores on the ACT subject-area tests that represent the level of achievement required for students.
- ❖ To have a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in corresponding credit-bearing first-year college courses.
- ❖ These college courses include English composition, college algebra, introductory social science courses, and biology.
- ❖ Based on a sample of 214 institutions and more than 230,000 students from across the United States, the Benchmarks are median course placement values for these institutions and as such represent a typical set of expectations.

Readiness Benchmark  
If the student's score is at or above the Benchmark, he or she will likely be ready for first-year college courses in the corresponding subject area. There is currently no Benchmark for writing.

Student's Score Range  
Test scores are estimates of the student's educational development. Think of true achievement on this test as being within a range that extends about one standard error of measurement, or about 1 point for the Composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below the student's score.

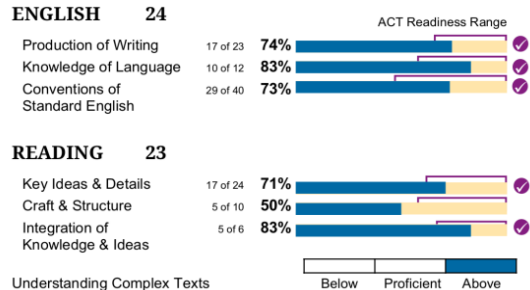

## Detailed Results

**ACT Composite Score:** ACT Math, Science, English, and Reading test scores and the Composite score range from 1 to 36. For each test, we converted the student's number of correct answers into a score within that range. The student's Composite score is the average of his or her scores on the four subjects rounded to the nearest whole number. If the student left any test completely blank, that score is reported as two dashes and no Composite score is computed.

**STEM:** Sciences, Technology, Engineering and Math **ELA:** English Language Arts

**ACT Readiness Range:** This range indicates how students who met the ACT College Readiness Benchmark on this subject test would be expected to perform.

**Understanding Complex Texts:** This indicator lets you know if you are understanding the central meaning of complex texts at a level that is needed to succeed in college courses with high reading demand.

If the student took the writing test, the essay was scored on a scale of 1 to 6 by two raters in each of the four writing domains. These domains represent essential skills and abilities that are necessary to meet the writing demands of college and career. The domain scores, which range from 2 to 12, are each a sum of the two raters' scores. The writing score is the average of the student's four domain scores rounded to the nearest whole number.
