Same Students. Same Teachers. **Better Results.**

BARR has two key foundational beliefs:

students are very capable of learning

if we can truly see who they are, and

educators are incredibly talented

if we provide a system where we can realize their talents.

Angela Jerabek, Founder and CEO

TWO PILLARS

“Grades are a good indicator of how a student is doing, but if you just look at grades, you miss a lot of things: social changes, friends-group changes, attendance, health, all of a sudden a student is getting too skinny. It’s like a puzzle, and everybody holds a piece of the puzzle so when we are all together, we can see the whole kid.”

Janice Eldridge
Director of Coaching and Secondary Schools

RELATIONSHIPS

CREATING SYSTEMS CHANGE

BARR introduces eight interconnected strategies that change the way teachers and staff work:

1. Focus on the whole student
2. Provide professional development
3. Use class time to build relationships as well as social and emotional skills
4. Create effective teacher teams
5. Embed processes for teachers to discuss students on their teams
6. Separately plan interventions for high-risk students
7. Engage administrative staff
8. Engage families

SAME STUDENTS.
SAME TEACHERS.
BETTER RESULTS.

all strategies work
together in a
systems approach

BARR (Building Assets, Reducing Risks) is a strengths-based K-12 educational model that provides schools with a **comprehensive approach to meeting the academic, social and emotional needs of all students** through the power of data and relationships – both inside and outside of the classroom.
