Navigating Cycle Monitoring in EMAC

Excellent training! This should be part of GME Bootcamp!

Super Helpful!!!

I would have loved to have this training my first year as Executive Director. Thank you!

Very useful. The changes and links will be helpful. Thank you.

Navigating Cycle Monitoring

Good information and some great resources. Thank you for putting this together.

Very informative. Thank you

An important overview.

Strengthening Your Planning Teams and C.N.A Processes

Thank you for the information and clarifications. I appreciate the responsiveness!

My intent with the surveys is not to replace teams and collaboration but to use the data to help generate discussion during the meetings. I completely agree that the discussion among stakeholders is important.

Making the Homeless Education Program a Success

School Eligibility w/Rank & Serve:

Great information! Thank you!

Very detailed and thorough. Need to do this again when completing the ESEA application March and April.

Was unfamiliar with grade span grouping.

Breakout Materials in Advance

I would have liked to have the PPTs all presenters are using provided in advance, so that I could have printed the PPTs and made notes directly on them. It would have been much more effective.

Teacher Input Application

Interesting information and helpful to understand the process for entering new teachers and exiting teachers in the system.
