

## Data Review Programmatic Monitoring

PEAs are expected to conduct genuine, thorough reviews of documentation and to provide evidence of the correction of self-identified noncompliance. The focus of the reviews will be Child Find (Indicators 11 and 12) and Secondary Transition (Indicator 13), as applicable.

- The Data Review monitoring is assigned when the PEA Risk Analysis Tool comprehensive score is more than one standard deviation above the state average.
- The ESS specialist provides the PEA with the **Data Review** student file form, which focuses on Indicator 11 (Child Find—initial evaluation timeline) and Indicator 13 (Secondary Transition).
- The ESS specialist will also provide the Child Find Worksheet, the In by 3 Worksheet, and the Agency Form.
- The Data Review timeline begins on **August 8, 2022**.
- No later than **August 26, 2022**, the PEA to be monitored will select student files to be reviewed that are a representative sample of the district/charter. Using the DRM-2 and DRM-3, the PEA will then submit the list of students to the PSM specialist.
- It is highly recommended that PEAs select files that are reflective of the current systems that are in place.
- No later than **September 2, 2022**, the PSM specialists will review the DRM-3 to verify that it reflects a representative sample.
- The PEA will conduct student file reviews using the Data Review student file form provided by the PSM specialist.
- Throughout the programmatic monitoring process, the PEA will consult with the PSM specialist on using the Guide Steps to ensure that accurate calls are made on the student forms.
- The PEA will submit the completed Data Review student file forms and the Child Find and In by 3 Worksheets, as well as the completed Agency Form, to the PSM specialist no later than **December 2, 2022**.
- Information on the student forms must be specific enough to determine the reasons for each “**out**” call on the line item of the Data Review student forms. Note that each individual instance of PEA-identified noncompliance will require evidence of correction before the monitoring process is complete. The evidence of correction must be submitted with the final submission.
- **No later than December 9, 2022**, the PSM specialist will **request**:

- copies of a representative sample of student files with enough information provided to validate the PEA's calls
  - a sample of supporting documentation to validate calls made on the Child Find and In by 3 worksheets
  - documentation to support components on the Agency Form, including local school board-approved policies and procedures, evidence of child find procedures presented to parents, PEA invitation list and agenda for private/home schooled students (districts only), evidence of referral system for birth to 2 years 9 months, evidence of referral system for 2 years 10 months to 5 (union high school districts and charters only)
- The PEA will **submit** all of the requested documentation by **January 6, 2023**
  - The PSM specialist will complete a sample validation of the compliance calls and provide feedback on the accuracy of calls made by the PEA no later than **February 10, 2023**.
  - Validation will result in one of the following: In Compliance, Individual Level of Correction (ILC), or Systemic Level of Correction (SLC).
    - In Compliance—all line items are 100% compliant. No further action is required. Monitoring is closed.
    - Individual Level of Correction (ILC)—all line items are 90% compliant or better. The PEA will submit individual student corrections. Subsequent file review is not required.
    - Systemic Level of Correction (SLC)—results include line items that are less than 90% compliant. The PEA will be required to correct all individual instances of noncompliance. Subsequent files must be reviewed.
  - **When the PEA falls into SLC**, the PSM specialist and the PEA will consider the following factors in determining the necessary subsequent documentation to be reviewed: the pervasiveness of the noncompliance from the initial review (noncompliance related to each section) and whether noncompliance was extensive (noncompliance related to student files); the specialist will also consider the frequency of out-of-compliance items that affect FAPE (which are shown on the student form as 60-day items). **Note: compliance must be demonstrated in subsequent documentation in order to finalize and complete the monitoring without findings.**
  - The PEA will submit the final documentation, including subsequent documentation (SLC only) and corrected noncompliance (ILC and SLC), **on or before March 31, 2023**.
  - The PSM specialist will request a sample for verification no later than **April 7, 2023**.
  - The PEA will submit requested student documentation no later than **April 14, 2023**.
  - The PSM specialist will verify the correction of all individual instances of noncompliance from the initial review (ILC and SLC) and verify compliance in subsequent documentation (SLC only) by **April 28, 2023**.
  - If there is no evidence of noncompliance by **May 11, 2023**, ESS will issue a successful completion letter to the PEA.

- If there is evidence of noncompliance, ESS will issue a written notification of findings (WNOF) to the PEA on or before **May 11, 2023**.
  - The PSM specialist, in collaboration with the PEA, will discuss the Summary of Findings (SOF), determine strengths and concerns, and develop a draft corrective action plan (CAP) **prior to May 11, 2023**.
  - The PEA and PSM specialist will finalize the PEA's CAP **within 30 calendar days**.
  
- Items that are considered detrimental to the PEA's ability to provide FAPE to students require that a PEA correct the student file within **60 calendar days** of the Written Notification of Findings letter; enforcement activities will apply if the timeline is not met.
  
- There is a one-year timeline for correction of all individual instances of noncompliance and completion of the CAP; enforcement activities will apply if the timeline is not met (OSEP 09-02 memo & DMS 2.0).

## Data Review Required Forms

**Agency Form**—Required for all PEAs in monitoring. Reviews policies and procedures as well as child find processes.

**Child Find Worksheet**—Required for all PEAs in monitoring. Reviews 45-day screening process of the PEA.

**In by 3 Worksheet**—Required for all PEAs in monitoring. Reviews the In by 3 process of the PEA (does not apply to PEAs who are not required to service preschool-aged children, such as Union High School Districts).

**Data Review Student Form**—Specifically created form for file review.

**Data Review Tracking Form**—Specifically created, multipurpose document to be used by specialists as a communication tool throughout the Data Review process. The PEA and the PSM specialist will use this tool to track and document progress.

**DRM-2/DRM-3**—Specifically created forms used to establish the number of files to be reviewed during the Data Review process; using these two forms will also assist the PEA in ensuring that a representative sample of student files is selected.
