

What is Tribal College Dual Enrollment?

An opportunity for high school students to get an early start on college by taking college courses at an accredited Tribal College or University (TCU)

College Courses are

- FREE!
- open to ALL Arizona high school and home school students
- counted toward both high school and college graduation requirements
- transferable toward post-secondary degrees in various fields

Tribal College Dual Enrollment Program

Who does the program serve?

Arizona high school and home school students (includes Native and Non-Native Freshmen, Sophomores, Juniors and Seniors)

Participating Tribal Colleges/Universities

Diné College

Tohono O'odham Community College

Navajo Technical University

How to get started?

The dual enrollment program requires high school districts to enter into an agreement with participating TCUs.

Students

- Connect with your high school counselor to learn more about the program

School Districts

- Please contact the three participating TCUs to learn more about the program agreements and policies

College-going Student Resource

Need help preparing for the college-going process? Explore the Ask Benji website to learn more about deadlines, financial aid and applying for college!

Why does this program exist?

General requirements for dual enrollment in Arizona are governed within the Arizona Revised Statute 15-1821.01.

In the 2015 Legislative session, the tribal college dual enrollment program was enacted. Thus, ARS Title 15, chapter 2, was amended by adding section 15-244.01 Tribal College Dual Enrollment Program Fund.

Benefits of the Program

Free

- Tuition and fees covered
- Books and instructional materials covered

Choice and Access

- Courses are available in-person or online
- Credits are transferable to other institutions
- Flexible for rural and remote students
