## Arizona Department of Education

### Audit Unit

February 8, 2023

Baltazar Garcia, Director  
Mexicayotl Academy of Excellence  
2059 N. Grand Ave.  
Nogales, AZ 85621

Dear Director Garcia:

The Arizona Department of Education Audit Unit has conducted an audit of the Mexicayotl Academy of Excellence (School) Average Daily Membership (ADM) for Fiscal Years 2020, 2021 and 2022. The purpose of the audit was to address whether the School properly reported student enrollment, and to determine if it received the correct amount of Basic State Aid.

Auditors determined that the School failed to properly maintain some required documentation in student cumulative files.

We appreciate the cooperation and assistance provided by the School's administration during the course of the audit.

Sincerely,

A handwritten signature in blue ink, appearing to read "Melissa Moreno".

Melissa Moreno,  
Chief Auditor

# INTRODUCTION AND BACKGROUND

---

The Arizona Department of Education (ADE) Audit Unit has conducted an Average Daily Membership (ADM) audit of the Mexicayotl Academy of Excellence (School) pursuant to Arizona Revised Statutes (A.R.S.) § 15-239. This audit focused on whether the School properly reported enrollment data to ADE and received the correct amount of Basic State Aid for Fiscal Years (FY) 2020 through 2022.

**Average Daily Membership audits of district and charter holder funding**—Pursuant to A.R.S. § 15-239, ADE may conduct ADM audits, which help ensure the appropriate distribution of Basic State Aid provided annually to school districts and charter schools. School districts and charter schools receive Basic State Aid based on several factors related to student enrollment and attendance. To receive funding, school districts and charter schools report enrollment and attendance data to ADE. ADE processes that data, determines payment amounts according to the relevant statutory funding formulas and distributes payments to schools up to twelve times each year.

The ADM audit process determines whether payments were correct or if an adjustment is needed. The audit process compares the school district’s or charter school’s information reported to ADE’s student data system to information found on the original records kept at the school. If auditors find that the school district’s or charter school’s reported information does not match the original documentation, the audit will calculate and report the funding adjustment needed to the school district’s or charter school’s Basic State Aid. These funding adjustments can be positive or negative, depending upon the audit findings. The audit findings are written and compiled into a report that is then issued to the audited entity.

**Superintendent’s legal notice links the audit and appeals processes**—In addition to the report, the audited entity receives The Notice of Audit Findings and Required Reimbursement (Notice) that details the audit findings and determination of the Superintendent of Public Instruction (Superintendent) regarding adjustments to be made to the school district or charter school pursuant to A.R.S. § 15-915. The audited entity may appeal the Superintendent’s decision in the Notice.

**Opportunity to appeal the audit**—A.R.S. § 41-1092.03 provides the audited school district or charter school that disagrees with the Superintendent’s decision in the Notice with the opportunity to file a formal appeal within thirty (30) days after the report was issued. If an appeal is filed, the school district or charter school and ADE may reach agreement in an informal settlement conference. If an agreement is not reached at the informal settlement conference, the appeal will be adjudicated by the Office of Administrative Hearings.

**Funding adjustment process and timeframes**—When the Notice is finally settled or adjudicated, if ADE has determined that a school district or charter school received an incorrect amount of Basic State Aid, A.R.S. § 15-915 directs that corrections to schools’ funding be made in the current budget year. In case of hardship, schools may request that the Superintendent

allow a correction to be made partly in the current budget year and partly in the following budget year.

**School information**—The School, with a location in Nogales and Tucson, Arizona, offered instruction in grades KG through 8 during the fiscal years audited. They had two elementary schools. Table 1 presents the School’s unaudited student, staffing and financial information for FY2020, FY2021 and FY2022.

## SCOPE AND METHODOLOGY

---

The audit focused on whether the School accurately reported its data to ADE and received the correct amount of Basic State Aid in accordance with statutes, the Uniform System of Financial Records for Arizona Charter Schools (USFRCS) and its own policies and procedures for FY2020, FY2021 and FY2022.

To conduct this audit, auditors used a variety of methods, including examining School and ADE records to review 150 of 582 students over the three fiscal years audited. Adjustments to ADM are based solely on those identified students that the auditors evaluated further and are not extrapolated to create findings for the entire student population. Auditors also reviewed state statutes and School policies and procedures, and interviewed School management and staff. Specifically:

- **Enrollment data** – Auditors reviewed student schedules, enrollment histories and attendance data to determine if the enrollment data reported to ADE was correct. Auditors compared the entry and exit dates to determine if an adjustment was necessary. Auditors also reviewed absences to ensure that they were reported correctly. No findings were identified for this area.
- **FTE calculations** – Auditors reviewed the bell schedules and student schedules to determine whether the School reported the correct full-time enrollment (FTE) data to ADE. Auditors calculated the FTE based on the classes and time a student was enrolled in the School, and compared the FTE to what was reported to ADE. No findings were identified for this area.
- **Student Files** – Auditors reviewed student files to ensure that they maintained required documentation such as birth certificates, immunization records, and supporting residency documentation. Auditors identified files that did not contain all the documentation that was required to be kept in them by statute and ADE guidelines.
- **Instructional hours** – Auditors reviewed the bell schedules and calendars for the School for FY2020, FY2021 and FY2022. The total instructional hours offered for each grade met the minimum required by statute for each of the three fiscal years audited.
- **Distance Learning Plans** – Auditors reviewed the Distance Learning Plans (DLP) for FY2022 that were used to provide education to students. In addition, auditors reviewed the percentage of learning that was distance learning or in person to determine if this was reported correctly. No findings were identified for this area.

- ***SPED Data*** – Auditors determined whether an adjusted student had also been funded for a special education (SPED) category. No findings were identified for this area.
- ***Limiting*** – Auditors reviewed the total ADM for each enrolled student to ensure that they were appropriately limited by ADE's system. No findings were identified for this area.

The Audit Unit expresses its appreciation to the School's administration and staff members for their cooperation and assistance during the course of the audit.

# **FINDING 1: THE SCHOOL DID NOT PROPERLY MAINTAIN SOME STUDENT RECORDS AS REQUIRED BY STATUTE AND GUIDELINE**

---

Auditors determined that the School failed to properly maintain residency and birth certificate documentation for some students as required by statute and ADE guidelines. The School did not properly maintain required documentation in some of its student cumulative files. In the future, the School should properly maintain these documents to ensure compliance with statute and ADE guidelines.

## **The School did not properly maintain student file documentation**

Auditors determined that the School failed to maintain residency documentation for some students as required by statute and ADE guidelines. According to A.R.S. § 15-823 and the ADE Arizona Residency Guideline, school districts and charter schools are required to maintain verifiable documentation of Arizona residency in the student's cumulative file. This documentation must be provided each time a student enrolls in a school district or charter school, and reaffirmed during the annual registration process. The ADE Arizona Residency Guideline identifies an approved list of options a parent or legal guardian may provide to the school district or charter school to meet these requirements.

Auditors also determined that the School failed to maintain birth certificate documentation for some students as required by statute. According to A.R.S. § 15-828, the student file must contain a photocopy of the student's birth certificate, other reliable proof of the student's identity and age and an affidavit explaining the inability to provide a birth certificate, or a letter from an authorized agency with custody of the student.

The School did not maintain the proper documentation required by statute and ADE's residency guideline. Of the 75 students sampled, 10 of the student files did not have the residency reaffirmed annually and one did not have a birth certificate in their file. Table 3 lists the student file documentation maintained by the School for FY2020, FY2021 and FY2022.

In the future, the School must ensure that it complies with statute by collecting and maintaining in each student's cumulative file copies of verifiable residency and birth certificate documentation as required by law.

**Recommendation:**

1. The School must comply with statute by collecting and maintaining in each student's cumulative file copies of verifiable residency and birth certificate documentation as required by law.
