## B. Significant Disproportionality

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the “reasonable progress” flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting** Form with their FFY 2020 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant application, please contact your OSEP State Lead before the Application due date.

**NOTICE TO ALL APPLICANTS:  
EQUITY FOR STUDENTS, EDUCATORS, AND OTHER PROGRAM  
BENEFICIARIES**

Section 427 of the General Education Provisions Act (GEPA) ([20 U.S.C. 1228a](#)) applies to applicants for grant awards under this program.

**ALL APPLICANTS FOR NEW GRANT AWARDS MUST INCLUDE THE FOLLOWING INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

Please respond to the following requests for information:

1. Describe how your entity's existing mission, policies, or commitments ensure equitable access to, and equitable participation in, the proposed project or activity.

The Arizona Department of Education (ADE) is a service organization committed to raising academic outcomes in learning environments free of distractions and empowering parents. Further, the ADE/Exceptional Student Services (ADE/ESS) section ensures that public education agencies (PEAs) in Arizona have special education programs, policies, and procedures that comply with the federal Individuals with Disabilities Education Act (IDEA) and its implementing regulations and that eligible children and youth with disabilities receive a free and appropriate public education (FAPE).

To monitor the implementation of the IDEA in Arizona, ADE/ESS implements a comprehensive General Supervision System that documents the State's accountability for enforcing the implementation of the IDEA and ensures continuous improvement that results in improved educational and functional outcomes for all children with disabilities and that each PEA responsible for educating children with disabilities meets IDEA program requirements. ADE/ESS utilizes measurements in its state performance plan/annual performance report (SPP/APR) and stakeholder and parent feedback to support its implementation of mission goals and policies.

2. Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?

Feedback received from the USDOE Office of Special Education Programs (OSEP) from Arizona's Federal fiscal year (FFY) 2020 SPP/APR identified a potential barrier that may impede equitable access and participation of students with disabilities from participating in their least restrictive environments. OSEP indicated that information provided in the SPP/APR related to Indicators 4A and 4B, which provide data on PEAs that have a significant discrepancy in the rate of disciplinary removals for children with individualized education programs (IEPs), including PEAs with a significant discrepancy by race or ethnicity, could not be determined to be valid or reliable. The primary concern related to A.R.S. §15-841, a state statute that permits informal disciplinary removals to "alternative education environments."

Following analysis of this feedback and the relevant statute, ADE/ESS identified that the informal disciplinary removals described in A.R.S. §15-841 could act as a potential barrier to the

participation of students with disabilities in their least restrictive environments because alternative education programs allow for all students (including students with disabilities) to receive instruction in a variety of environmental settings in lieu of a suspension or expulsion. The rate of disciplinary removals identified in SPP/APR Indicators 4A and 4B also decreased due to the broader transition of Arizona students into more hybrid and virtual environments following the COVID-19 pandemic.

3. Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

ADE remains committed to treating every child with respect and dignity, regardless of race, gender, ethnicity, or sexual orientation. To address the identified barrier to equitable access and participation in the least restrictive environment, ADE/ESS developed a three-pronged approach to ensure disciplinary removals to alternative education environments were reported in alignment with federal guidance and documented consistently.

First, ADE/ESS provided guidance to PEAs, reinforcing that all cases of removal from a student's typical educational environment must be reported according to federal guidelines. This step raises awareness for PEAs to consider appropriate, equitable, and evidence-based processes before removing students with a disability from their least restrictive environments for disciplinary purposes.

Additionally, beginning in Federal fiscal year 2024, Arizona will transition to a discipline reporting process that inputs disciplinary removal data directly into the statewide student information system, AzEDS. This direct reporting process will allow the SEA to review and address potential concerns for implementing discipline requirements under the IDEA.

Finally, the SEA has developed a new reporting rule for all students that requires PEAs to submit discipline data for students reassigned to an alternative education program as an alternative to a suspension or expulsion or placed into an alternative to suspension program. This requirement allows the SEA to clearly document all scenarios of removal from educational environments for federal reporting.

The SEA will provide professional development and ongoing technical assistance to support these data collection and reporting changes.

4. What is your timeline, including targeted milestones, for addressing these identified barriers?
  - ADE/ESS provided and reinforced guidance on appropriate disciplinary processes and reporting requirements consistent with federal guidelines and the new Arizona discipline reporting process in December 2022.
  - Additional reinforcement of previously provided guidance will occur during the 2023 – 2024 school year.
  - The new discipline collection platform will launch in the 2023 – 2024 school year.
