

## Career & Technical Education

### FY 2023 Arizona Industry Credential Incentive Program 2020 - 2021 Graduates

The Arizona Industry Credential Incentive Program provides incentive awards to LEAs, including school districts, charter schools, and career and technical education districts (CTEDs) for high school graduates that obtain a certification, credential, or license that is accepted by in-demand industries in the state.

In FY 2023, grant allocations are determined by credentials earned in high-demand sectors by students that graduated in school year 2020-2021. Total available funding was limited to slightly under \$2,000,000 due to program discontinuation. In FY 2023, each 2020-2021 graduate may generate no more than \$361.27. Funds are prorated equally for students that earned more than one qualifying credential through attendance at more than one entity, such as at a school district and at a CTED. Incentive funds were prorated in this fashion for 184 students that attended more than one entity.

#### FY 2023 Summary

Total dollar amount/allocation per qualifying credential:	\$361.27
Total Dollar amount available for FY 2023 grant funding:	\$1,950,108.88
Total number of LEAs that reported qualifying credentials:	70
Total number of qualifying credentials earned:	6414
Total number of students that earned a qualifying credential:	5480
Total number of students that earned a credential at more than one LEA:	184
