

Fiscal Year:

School Finance uses the 100th day (or 200th day where applicable) of each school's calendar to calculate average daily membership (ADM). To support ADM calculation, AzEDS requires that all schools submit one 5-day or 4-day calendar. The required 5-day or 4-day calendar is considered the school's primary calendar. Once the primary calendar has been submitted, up to 3 additional 4-day or 3-day calendars for preschool (PS) or kindergarten (KG) may be submitted, if needed.

To request approval for calendars beyond the defaults described above, please complete this form and attach it to an Account Analyst Support Request within the HelpDesk application.

Once your request is approved, you'll receive notice from School Finance to coordinate the upload of your new calendar(s) through your SIS to AzEDS.
