Integrity Error -40041

Error Message:

Invalid age for need code DD.

Description:

If a student is submitted with a DD need code and the student is not less than 10 years of age, then report the discrepancy as an error.

Example:

- SPED
    - Need
        - DD
- Enrollment
    - Date of Birth

-40041
Is the student reported with DD need over 10 years old?

Troubleshooting:

- Verify need entry and exit dates.
- Consult the IEP team to determine accurate needs to report for the student over 10 years old.
    - Re-evaluation of DD need should take place 3 months prior to the student's 10th birthday.
- Note: Integrity error -40072 will begin failing 2 months prior to the student's 10th birthday if DD has not been updated.
- Once corrected, allow integrity to run overnight to see if the student is passing integrity on the SPED72 report.

A listing of all Integrity Rules can be found on the AzEDS website.
