

Integrity Error -40050

Error Message:

Student participating in special education must have one Federal Primary Need Indicator (FPNI).

Description:

If a student with a SPED need does not have one Federal Primary Need Indicator (FPNI) and special education, then report the discrepancy as an error.

Example:

- SPED
 - Need
 - Entry and Exit dates
 - Primary or Secondary
 - LRE
 - Entry and Exit dates
- ➔
- 40050
During the time of the reported LRE, is one of the Needs reported as a Federal Primary Need?

Troubleshooting:

- Verify Need and LRE Entry and Exit Dates.
- Verify Primary Need dates encompass all dates of reported LRE.
 - Note: A Primary Need can be exited and a new Primary Need reported within a single LRE, as long as all dates of the LRE have a Primary Need reported.
 - Note: LRE L does not require an FPNI.
- Verify Need FPNI.
 - CONSULT THE STUDENT'S IEP TO DETERMINE THE FPNI. FPNI is not determined by funding or order of entry.
 - The FPNI is defined as the need that most adversely affects the student's ability to progress through the general curriculum.
- Once corrected, allow integrity to run overnight to see if the student is passing integrity on the SPED72 report.

A listing of all Integrity Rules can be found on the [AzEDS website](#).
