To address this provision and receive funding, LEAs must provide responses to the following:

Applicants are not required to have mission statements or policies that align with equity in order to submit an application.

* 2. Based on your proposed project or activity, what barriers may impede equitable access and participation of students, educators, or other beneficiaries?
Applicants may identify any barriers that may impede equitable access and participation in the proposed project or activity, including, but not limited to, barriers based on economic disadvantage, gender, race, ethnicity, color, national origin, disability, age, language, migrant status, rural status, homeless status or housing insecurity, pregnancy, parenting, or caregiving status, and sexual orientation.

* 3. Based on the barriers identified, what steps will you take to address such barriers to equitable access and participation in the proposed project or activity?

* 4. What is your timeline, including targeted milestones, for addressing these identified barriers?

- Must be completed with first revision (FY24).
