

AI Resources for Teachers

What is AI?

AI, or artificial intelligence, is a type of computer technology that can perform tasks that usually require human intelligence.

Teaching with AI

We recognize that many educators are anxious to learn more about best practices for teaching with AI. We encourage you to begin by checking out the below resources from reputable organizations regarding the use of Artificial Intelligence in the classroom.

1

Office of Educational Technology

The U.S. Department of Education Office of Educational Technology has drafted a new policy report that addresses the top priorities for AI in education. Their website includes links to the report itself, as well as webinar recordings and resources to support their studies and guidance.
