

K-5 Career Discovery Corner Kinsey Elementary School Library – Flagstaff, AZ

Kinsey Hotshots introduced a new section of our Library outfitted with age-appropriate career resources. Our students now have a space to discover new career possibilities!

Students are scheduled to visit the Library on **Discovery Day Fridays** to meet local professionals, to hear firsthand what happens on the job

including hands-on experience with the tools of the trade. After the visit, students have time to access related books and materials, try on uniforms, and talk about the careers they are excited about. These positive experiences have inspired students to explore more about their career interests!
