POTENTIAL APPLICATIONS OF THE AZELLA ITEM SPECIFICATIONS
Applications and Resources

• Create items aligned to the ELP Standards similar to those that students will encounter in AZELLA for the purpose of:
  ➢ Classroom quizzes and tests
  ➢ Formative assessments
  ➢ Additional practice for the Spring Reassessment
• Educators can contribute to the development of a school or district item bank
• Resources available:
  ➢ AZELLA Item Specifications (KG, Grade 1, Grades 2-3, Grades 4-5, Grades 6-8, and Grades 9-12)
  ➢ Considerations to Create an English Language Test handout
  ➢ Ideas and templates to develop items by grade/grade band handouts (6 in total)

Considerations to Create an English Language Test

PELL Meeting
September 6, 2023
Questions and considerations to create an English language classroom test

- Are the test procedures practical? (look at directions, admin time, ease of scoring)
- Is the test reliable? That is, would the same student/group of students get identical or similar scores if they were to take the same test under the same test-taking circumstances? Rubrics are critical for reliability.
- Is the test, to the extent possible, authentic?
- Does the test measure what it is intended to measure? (Look at the ELP standards, performance indicators, and proficiency levels. If a section of a test, for example, is supposed to assess Speaking, make sure that is you are not assessing Reading.)
- Is the test free of bias and culturally sensitive?

- Is the test accessible and does it provide sufficient and adequate supports for ELs of varying levels of proficiency?
- Whenever possible, pilot your test or “administer” it to a fellow teacher or coworker. This will help you determine if there are any adjustments or enhancements you need to do before your students take the test.
- Create your own item specifications and templates, it will help you develop new and better items.
- Create your own item bank. You worked very hard to develop your test. You might be able to use it all, or parts of it, next school year.

Spring 2024 Reassessment - Kindergarten and Grade 1 Speaking Test (Unit 5)

• TestNav will replace the phone administration.

• Student experience will be virtually the same when compared to the phone administration. **In a one-on-one administration:**
  - Students will use their Student Test Book.
  - Only the Test Administrator will interact with the testing device.
  - Test Administrator will sign into TestNav with the Testing Ticket, play the question or prompt for the student, and record their answer.
  - The KG and Grade 1 Unit 5 Sample Test will be available in TestNav for Test Administrators and students to practice before the administration of the Reassessment test.
  - A new Speaking Demonstration Video will be available in PAN and embedded in the Reassessment K – 1 training module.
  - Scripted directions in TAD will include, “Turn the page. Look at number X.”
  - There should not be a considerable pause between the question/prompt and recording the student response. ADE will be monitoring.
