

ARIZONA'S

Preschool Environments

FOR STUDENTS WITH DISABILITIES (SWD)

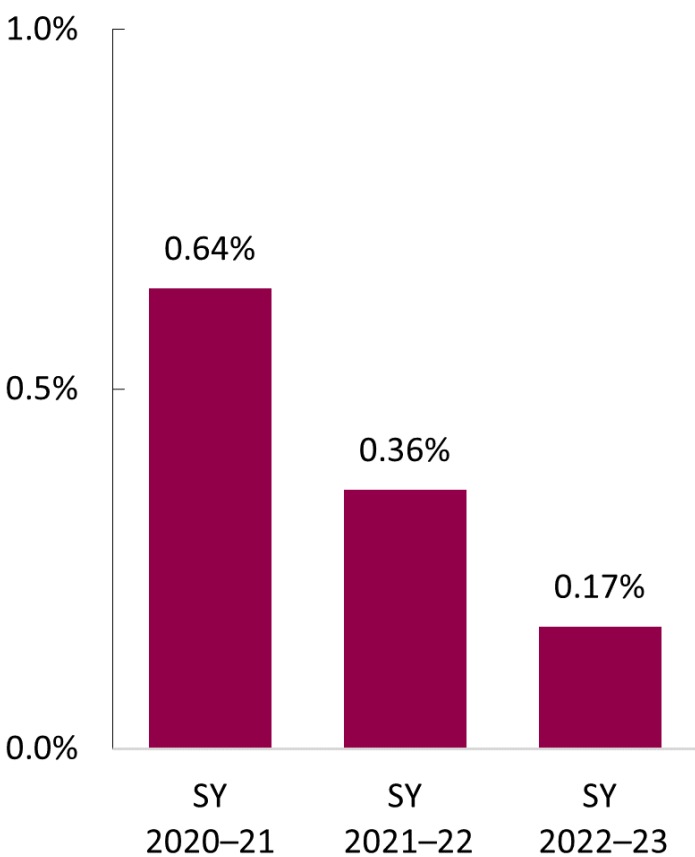

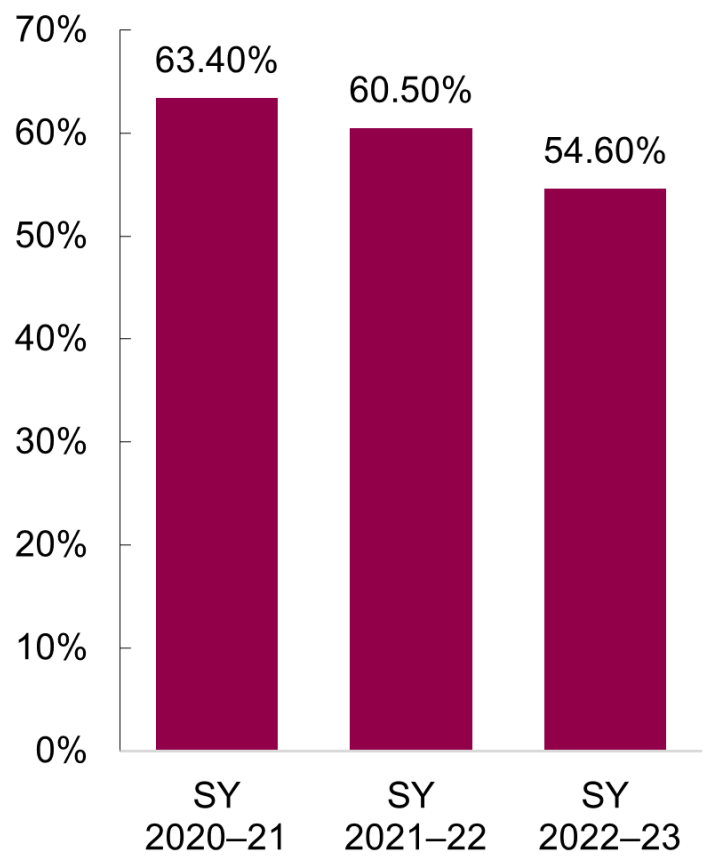

35.2%

of preschool SWD attended a Regular Early Childhood Program* in 2023, compared to the 2022 US average of 41%.

54.6%

of preschool SWD attended a separate special education class, separate school, or residential facility, compared to the 2022 US average of 28%.

0.17%

of preschool SWD received their special education and related services in their home, compared to the 2022 US average of 3%.

*A Regular Early Childhood Program (RECP) is one in which at least 50% of the children enrolled in the class are nondisabled and do not have an IEP.
