Integrity Error -52011

Error Message:

Expulsion action for SPED with no services must report if Parent Declined the services.

Description:

Incident Expulsion Action for students reported SPED must indicate if parent declined services during the expulsion.

Example:

- Incident
    - Student
    - Incident Violation
    - Incident Action
    - Services Provided

                                                    -52011
                                        Are Services Provided 'No'?
            ➡   If Expulsion, is Parent Declined Services null?
                                Parent Decline Services cannot be null.

Troubleshooting:

- If a student is reported with an expulsion, services provided should be a yes or no. If no, ensure the Parent Decline Services has a value of either yes or no.
- Once corrected, allow integrity to run overnight to see if the student is passing on the INTEG15 report.

A listing of all Integrity Rules can be found on the [AzEDS website](#).
