

Career and Technical Education District (CTED) Annual Report for School Year 2022-2023

Pursuant to Arizona Revised Statutes §15-393.01(C)

Submitted by the Arizona Department of Education
Career and Technical Education Section

Kevin Imes
Deputy Associate Superintendent & State CTE Director

Colette Chapman
Associate Superintendent

Scope of the Report

Arizona Revised Statutes (ARS) §15-393.01(C) requires that on or before December 31st of each year, the Career and Technical Education (CTE) division of the Department of Education (ADE) shall submit a Career & Technical Education District (CTED) annual report to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Secretary of State, and the Joint Legislative Budget Committee. The annual report shall include the following:

- 1) The average daily membership of each career and technical education district, including the average daily membership of each centralized campus, satellite campus and leased satellite campus as defined in §15-393.
- 2) The actual student count of each career and technical education district, including the student count of each centralized campus, satellite campus and leased centralized campus as defined in §15-393.
- 3) The programs and corresponding courses offered by each career technical education district, including the location of each program and course.
- 4) For each career technical education district based on program or course location:
 - a. The student enrollment of each program and corresponding course.
 - b. The percentage of students who enrolled in the second year of each program and corresponding course relative to the number of students in the same cohort who enrolled in the first year of each program and corresponding course.
 - c. The percentage of students who completed each program relative to the number of students in the same cohort who began the program.
- 5) The costs associated with each program offered by the career technical education district.
- 6) A listing of any programs or courses that were discontinued by review of the Career and Technical Education division pursuant to §15-393, subsection W.
- 7) A listing of any programs or courses that were continued by review of the Career and Technical Education division pursuant to §15-393, subsection W.
- 8) A listing of any programs or courses that were added by the Career and Technical Education division.
- 9) For applicable school districts, the required maintenance of effort and how monies were used to supplement and not supplant base year career and technical education courses, including expenditures related to personnel, equipment, and facilities.
- 10) Any other data or information deemed necessary by the Department of Education.

Section 1: Average Daily Membership & Student Count

The average daily membership of each career and technical education district, including the average daily membership of each centralized campus, satellite campus and leased satellite campus as defined in §15-393.

The average daily membership (ADM) and student count for each Career and Technical Education District (CTED) was provided by the Department’s School Finance division which utilizes ADM to calculate school payments. ADM and student count for the 100th day of school was used for all CTEDs. Please note that students in the 9th grade do not generate CTED ADM and not included in that value in this report but may be enrolled in CTED programs (especially satellite programs) and are therefore included in the student count values in this report.

Section 2: Program Enrollment and Completion

The programs and corresponding courses offered by each career technical education district, including the location of each program and course.

For each career technical education district based on program or course location:

- a. The student enrollment of each program and corresponding course.*
- b. The percentage of students who enrolled in the second year of each program and corresponding course relative to the number of students in the same cohort who enrolled in the first year of each program and corresponding course.*
- c. The percentage of students who completed each program relative to the number of students in the same cohort who began the program.*

ADE-CTE gathers student enrollment data for all CTE programs through the CTE Data Portal, an online data collection and reporting application. This data includes student enrollment in all programs and corresponding courses including credits earned by students. Since both school districts and CTEDs report enrollment data for the same group of students (CTED central/leased central/community college campus students), ADE-CTE can compare the two datasets to verify accuracy and completeness.

Program persistence (element 4b) is calculated as the total number of unduplicated students who enrolled in more than one course (i.e., the second course) within the specific program divided by the total number of unduplicated students who enrolled in at least one course (i.e., the first course) within the specific program. Program completion (element 4c) is calculated as the total number of unduplicated students who completed (passed) all required courses within a specific program divided by the total number of unduplicated students that enrolled in at least one course within the specific program. For FY 2023, program persistence and completion are calculated using students in expected graduation cohort 2022-2023.

Section 3: Program Costs

The costs associated with each program offered by the career technical education district.

The ADE-CTE annual CTED Report utilizes data gathered from the previous school year for analysis. Expenditures in support of career and technical education programs are reported from all funding sources rather than simply CTED funding. The cost reporting spreadsheet utilized for this report was reviewed in conjunction with the Arizona Office of the Auditor General (AOAG) to efficiently gather all required data. The Program 300 codes in the Chart of Accounts listed in the Uniform System of Financial Records for Arizona School Districts (USFR) has been identified for use in tracking local expenditures related to career and technical education programs. This reflects the second year these program codes to have been mandatory for use in tracking expenditures.

CTED member districts typically receive state and federal grants, as well as other local funding (such as local tax levy revenues, State Aid, State Vocational Block Grant funding, Carl D. Perkins funding, tax credit contributions, gifts of equipment/supplies and other secondary sources). It is important to note that, apart from the East Valley Institute of Technology (EVIT), CTEDs do not apply for federal Carl D. Perkins grant funds. Historically, teacher salaries and benefits have been the strongest indicator of total program costs, followed by the equipment/supplies utilized to implement career and technical education programs. The ADE-CTE will continue to work with the AOAG should any modifications become necessary to gather appropriate program cost information for future reports.

Section 4: Program and Course Listings

4a – Discontinued Programs & Courses

A listing of any programs or courses that were discontinued by review of the Career and Technical Education division pursuant to §15-393, subsection W.

The following programs were found non-compliant pursuant to §15-393, subsection W and were discontinued as CTED-eligible programs pending remediation:

CTED	District	School/Site	Program
VACTE	Camp Verde Unified District	Camp Verde High School	Culinary Arts
WAVE	Kingman Unified School District	Kingman High School	Digital Photography

Camp Verde High School’s Culinary Arts program was found to be in full compliance in December 2023. Kingman High School has discontinued their Digital Photography program as of FY 2023-2024.

The CTE Program Services unit provides technical assistance to programs found to be non-compliant.

4b – Continued Programs and Courses

A listing of any programs or courses that were continued by review of the Career and Technical Education division pursuant to §15-393, subsection W.

All programs and courses except for those listed above were continued for FY 2023.

There are a total of 61 programs on the Approved CTE Programs list and 26 Local Occupational Programs (some Local Occupational Programs are offered by multiple districts/CTEDs).

To view continued courses for each CTED, please see section 2 of this report.

For more information, please see:

- [FY 2023 Approved Programs List](#)
- [FY 2023 Coherent Sequence](#)

4c – Added Programs & Courses

A listing of any programs or courses that were added by the Career and Technical Education division.

No new programs or courses were added for FY 2023.

Section 6: Maintenance of Effort & Supplement Not Supplant

For applicable school districts, the required maintenance of effort and how monies were used to supplement and not supplant base year career and technical education courses, including expenditures related to personnel, equipment, and facilities.

Districts must demonstrate that funds were used to supplement and not supplant the amount used during the “base year” with regards to their CTED funding. The report specifically requires the inclusion of common expenditure types for career and technical education courses, which covers staffing, equipment, and facilities.

This data, provided by the School Finance division of the Department, provides a summary of the “Work Sheet for Determining the Appearance of Supplanting with CTED Monies” submitted by each CTED as part of their Annual Financial Report (AFR).

Summary Table Notes

- (1) Figures shown for each CTED are for its central campus(es) and satellite campuses combined unless otherwise indicated.
- (2) Unduplicated student headcount as of the 100th day of school.
- (3) ADM as of the 100th day of school. ADM is less than enrollment because more students attend CTEDs on a part-time basis and 9th grade students are included in the CTED enrollment but are excluded from their ADM data.
- (4) The percentage of SY 2022-2023 seniors who enrolled in the first course of a CTED eligible program and who also enrolled in the second or higher course of the same program.
- (5) The percentage of SY 2022-2023 seniors who enrolled in a course beyond the first course of a program and also completed the program.
