TEACHING AND LEARNING SERIES PRESENTS:

RETENTION STRATEGIES FOR GROWTH AND SUCCESS

Presented by Charlie Weeks at

essential education

The struggle is real! Student retention is one of the most critical challenges in adult education. When attendance is down, student progress slows, and educator frustration grows. In this session, we will explore the problem and, more importantly, seek practical solutions. Utilizing the innovative research and hands-on experimentation of adult educators across the country, teachers and administrators will gain applicable learning strategies and engagement activities to keep students coming back.

Part 1: May 7, 2025
Part 2: May 21, 2025
