

2026 Indigenous STEM Project

February 25
ISP On-Demand Webinar
A self-paced experience

March 11
ISP Professional's Panel
5:00-6:30 PM • Virtual on Zoom

April 2
ISP Symposium
Arizona Science Center • Phoenix, AZ

For all AZ Educators!

Free events

Special guests

CEU's available

The Office of Indian Education presents a free, professional learning series made up of 3 events. The Indigenous STEM Project (ISP) will empower all educators to integrate science, technology, engineering, and mathematics (STEM) in ways that honor Indigenous knowledge systems.

It will equip educators with relevant, research-based professional learning focused on culturally responsive STEM education. Through evidence-based strategies and best practices, we will enhance educators' capacity to serve Native American students, improving their academic outcomes and engagement in STEM fields.
