

FY27 Education for Homeless Children and Youth (EHCY) Continuation Grant Program Narrative Questions

For each program narrative question, describe how the Education for Homeless Children and Youth (EHCY) grant funds will **supplement** the existing services provided to all students to eliminate the specific barriers to educational opportunities and academic success for children and youth experiencing homelessness. Responses must fully address each program narrative question to provide a robust understanding of the LEA's local Homeless Education Program (HEP), and how EHCY-funded resources and collaborative partnerships will be utilized to provide supplemental services, monitor progress, and evaluate strategies to address the unique needs of children and youth experiencing homelessness. Please refer to the LEA's identification, enrollment, academic, attendance, graduation, disciplinary, and other pertinent data for children and youth experiencing homelessness and the McKinney-Vento EHCY Allowable Uses of Funds when addressing the program narrative questions below. Additionally, please ensure alignment between the LEA's data, program narrative question responses, and proposed budget.
