

SUN Bucks & AzEDS

FLOW OF STUDENT ELIGIBILITY DATA

A strong collaboration between School Nutrition and Student Information System representative is imperative for the success of SUN Bucks. The following flowchart outlines the relationship between AzEDS data and SUN Bucks benefits and indicates when action by the SFA is required for eligible children to receive benefits.

 The FSP10 (Food Service Program Verification report) displays students who have been reported to AzEDS with either Free, Reduced-Price or Full Pay eligibility status based on either a USDA Income Application, Direct Certification or Other Source Categorically Eligible source. SFAs can compare the FSP10 report to the export from CNP Summer EBT - SUN Bucks Data Portal to help compile students who may need eligibility updated in the CNP Summer EBT - SUN Bucks Data Portal. For assistance generating the FSP10 report, please view the [Quick Reference Guide](#) created by ADE's Information Technology Division.
