<p>1 Food quantities served at lunch during the review period did not meet the minimum amounts required by the meal pattern. Specifically, 1/2 cup starchy was served on November 3, 2025 when 3/4 cup is required daily at lunch for grades K-8. This was not a repeat finding from the previous cycle and therefore did not contribute toward fiscal action calculations.</p>	<p>Discussed how current system allowed for this to happen and potential changes that could be made to ensure it doesn't continue (e.g., changes in serving utensils, recipes, etc.). Meal pattern requirements for the National School Lunch Program can be found on ADE's website at http://www.azed.gov/hns/nslp under the Meal Pattern accordion.</p>	<p><i>Please provide a written description of the changes that have been made to ensure that daily starchy quantities at lunch meet the minimum amounts required by the meal pattern. Additionally, the certificate of completion of Step-by-Step Instruction: How to Plan a Lunch Menu must be submitted.
