Continuity of Services

Including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services.

18. How will the LEA ensure Continuity of Services?*

Briefly describe an overview of the continuity of services and in the following questions you will provide more detailed information.

Dysart partners with staff, students, parents, and community to ensure the continuity of services addressing student academic needs, student and staff other needs including mental health support, health services support, and food services (students). This is completed through various forums including Governing Board Meetings Superintendent Parent, Support Staff, and Certified Staff Councils.

19. How will the LEA ensure continuity of services for students' academic needs?*

Teachers, interventionists, and other school staff work together to meet student academic needs through tutoring, Tier II and Tier III interventions and summer school.

20. How will the LEA ensure continuity of services for students' social, emotional, and mental health needs?*

Each school has a Social Worker to support students and their families.

21. How will the LEA ensure continuity of services for students' other needs?*

This may include student health and food services.

Each school has a health office. Families are required to qualify for Free and/or Reduced Meals.

22. How will the LEA ensure continuity of services for staff's social, emotional, and mental health needs?*

Dysart has an Employee Assistance Program to support employees with a variety of issues.

23. How will the LEA ensure continuity of services for staff's other needs?*

Any staff that tests positive for COVID-19 should isolate for a minimum of 5 days and end isolation when symptom free.

The LEA must regularly, but no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools), review and, as appropriate, revise its plan for the safe return to in-person instruction and continuity of services through September 30, 2023

24. Describe the process used to seek public input, and how that input was taken into account in the revision of the plan.*

11- 16- 2021 The ESSER III plan was discussed with administration until a preliminary plan was created. That preliminary plan was discussed with school administration, including all directors (Special Ed Director). Then a survey with a breakout of the plan and the various areas of support was posted online and on the districts Facebook page and feedback was collected. After reviewing the feedback, the plan was modified to provide more site level support and then presented to the Governing Board and the community at a board meeting on the revised plan.
Revision August 10, 2023
An agenda was presented to the Governing Board. This allowed the opportunity for all stakeholders to comment as well as provide input on the plan. The plan will continue to make minor adjustments to align with the CDC as well as other state, county, and local guidelines.
