Continuity of Services

Including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services.

18. How will the LEA ensure Continuity of Services?*

Briefly describe an overview of the continuity of services and in the following questions you will provide more detailed information.

Through the assistance of various funding (ESSER, M/O,) we are able to continue to maintain all of the services that we added during the 2022-23 school year. These services include but are not limited to additional academic support, ESS support, counseling, and health services.

19. How will the LEA ensure continuity of services for students' academic needs?*

We will be providing RTI, tutoring, and summer school to address students' additional academic needs.

20. How will the LEA ensure continuity of services for students' social, emotional, and mental health needs?*

We have our teachers/paraprofessionals assisting our students. Teachers are continuously contacting parents about possible issues. A counselor is also brought in once a week to help with assisting students. It is also the plan for the district to provide continued PD to staff to help support students with their emotional and social needs.

21. How will the LEA ensure continuity of services for students' other needs?*

This may include student health and food services.

Academic, nutrition, and student health support systems are in place and will continue. Other areas of need will be addressed on an incident basis.

22. How will the LEA ensure continuity of services for staff's social, emotional, and mental health needs?*

Our insurance has programs to support our employees and their families with social, emotional, and mental health needs.

23. How will the LEA ensure continuity of services for staff's other needs?*

LEA will continue to provide the necessary supports for staff members as needed.

The LEA must regularly, but no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools), review and, as appropriate, revise its plan for the safe return to in-person instruction and continuity of services through September 30, 2023

24. Describe the process used to seek public input, and how that input was taken into account in the revision of the plan.*

Plan was revisited by staff and stakeholders, input incorporated into plan.

After completing all responses in EMAC, save your information. Then, use the red download button to create a copy of your completed form to be uploaded to your LEA website. Once your form is uploaded to your LEA website, log back into EMAC to click the blue submit button and submit your form to be reviewed by your specialist. Your EMAC submission will not be approved unless this updated form is on your LEA website.

25. Did you upload the completed EMAC form to your LEA website?*
