## Document Purpose

---

This document contains an overview of the transactions in the Arizona Department of Education's Student Accountability Information System. This overview consists of explanatory notes, transaction layouts, and element optionality settings.

For detailed specifications of the validations ADE performs on the submitted data, see the full documentation, separated by the general areas of business:

- Student Database Transaction Requirements: Membership
- Student Database Transaction Requirements: Needs; Assessment; Program/Service Participation, IEP, Preschool Programs.

## Contacts

---

For comments, corrections, or other information about this document, contact the ADE IT Department at [ADEsupport@azed.gov](mailto:ADEsupport@azed.gov). Please provide the following information:

- In the "Subject" line of the email, type "ADE IT Document inquiry."
- In the body of the email:
  - the system name and document name (from the document's header)
  - the document's last updated date (from the document's footer)
  - the purpose of your inquiry
  - your identifying information:
    - your name
    - your district name and CTD, or school name and CTDS, or your company name
    - your contact email address (because the email will be forwarded when it reaches ADE)

## Document References

# SAIS in Brief

---

## SAIS Scope

---

The Student Accountability Information System project was entrusted to provide new system solutions to state and federal funding and reporting. The project comprised the following functional areas.

- Budgets and Financial Reporting
- Student Counts - aggregate student data
- State Aid/Payments
- Local Education Agencies (LEA's) Data (school districts, schools)
- Student Detail Data - individual student records

SAIS is a core system to which the following ADE functions have been or will be linked: Student Services, School-to-Work, Exceptional Education Vouchers, Student Achievement, GED, Grants, and Teacher Certification.

Hence SAIS developed a consistent enterprise-wide customer database, where the term "customer" refers to LEA's and to any other entity that receives services from ADE.

As of December 1999 all of the system components of the first four areas were implemented. From July 1999 state aid payments have been determined by the new systems. All ADE reports for LEA's are posted on the ADE web site.

The fifth area - Student Detail Data - represents the adoption of a new approach to student information accountability. Rather than collecting numerous student counts, the intention is to collect, as events occur, the source data: individual student records reflecting specific events in the students' relationship with the school (e.g., beginning a membership, absence, withdrawal from a membership). The new approach has become law with the approval of proposition 301 in November 2000, effective July 1, 2001.

## The Student Database System

---

### Purpose

The Student Database System is designed to electronically receive student level data from local school/district databases in a periodic process (as often as daily), in order to provide the following capabilities.

- Consistent and accurate calculations of student counts for funding, generated by one system for all schools
- Planning and policy analysis for ADE (e.g., student mobility)
- Support academic achievement research

The submission of student level data will replace the current submission of various aggregate student counts reports by the school districts/charter schools. This would save them a great deal of work.

Collection of individual student data is a growing trend among state education agencies, as they expand research and analysis engagements to improve the education system.

### Development Phase

The development of the Student Database System is organized in several phases. The first phase is focused on state funding and reporting requirements and on integration of achievement data in the system. The second phase will be focused on federal and state block grant funding and reporting. Enhancements to the second phase will incorporate further elements related to achievement and other advanced requirements such as those specified in the federal No Child Left Behind act.

## Phase I

---

### Data Content

The data to be collected about a student is driven by funding and reporting requirements imposed by the state and federal governments. The data includes student identification and demographics, district of residence, school membership (beginning a membership, withdrawal from a membership), grade membership, absence, student needs (e.g., a disability or a language need), assessments, and participation in programs/services (e.g., language programs or SPED services).

Student achievement data (Stanford 9 and AIMS) is received and maintained at ADE. This data will become an integral part of the Student Database.

### Data Submission

- Electronic data exchange between student management systems at the schools and the ADE database system.
- Local school database systems will need to be enhanced to perform the functions of extraction, formatting and encryption of the relevant data, submission of the data file via the Internet, saving the extracted data file locally until confirmation is received from the ADE system, accepting files from the ADE system.
- The software vendors will do the enhancements.

### Data Security and Confidentiality

- Student data will not be published, nor will ADE staff update it.
- Data will be encrypted prior to submission.
- Every reporting school/district will assign an authorized person to handle submission and error correction.
- ADE will abide by FERPA regulations.

### Development Timeline at ADE

Phase I was put into production for parallel operation with existing systems in the 2001-02 fiscal year, with full production in the 2002-03 fiscal year.

## Phase II

---

A firm deadline for implementation of Phase II has not been determined. When the deadline has been identified, the development timeline will be announced using the procedures outlined in section [Document Distribution / Postings](#) (page 22) of the earlier chapter titled [About This Document](#) (page 22). The initial step in this phase is to collect data about the support program participation; this is being implemented for the Fall 2003 school year.

### Data Content

The additional data to be collected at this phase includes support program participation (previously called "supplementary" programs/services) established by school districts/charter schools using federal or state grants, and student participation in these programs.

### Data Submission

Submission of support program participation will be performed the same way all other membership and needs-related information is submitted to SAIS today.

In a future addition to Phase II, to enable submission of student participation in other supplementary and support programs/services, enhancements must be applied to the ADE Grants System and LEAs' Student Management

Systems. At ADE the Grants System needs to capture the descriptive features of the programs/projects LEAs apply for, currently submitted and maintained on paper. At LEAs, the program/service with its grant ID and participating students, need to be maintained in the local Student Management System. Once maintained locally, student participation data can be extracted and submitted like other data transactions.

## General Requirements

---

This document is a synopsis of the various SAIS transactions which the districts and LEA's will use to submit data to ADE. A chapter is dedicated to each transaction, and contains a description of the transaction purpose, relevant points of interest, how the transaction is intended to be used, and a field-level definition of the transaction elements.

**Note:** This General Requirements chapter appears in its entirety in each document in the Student Database Transaction Requirement series.

## Processing Overview

---

SAIS's processing methodology and rules are not included in this document. For specific technical processing, verification, and validation details, see the various Transaction Requirements documents, which are organized by subject matter:

- Transaction Requirements: Membership
- Transaction Requirements: Needs
- Transaction Requirements: Integrity Checking Processes
- Transaction Requirements: System Messages
- Transaction Code Values

## Fiscal Year

"Fiscal year" is used throughout SAIS. The state fiscal year is defined in A.R.S. § 101.10 as July 1 through June 30. ADE and SAIS operate on the state fiscal year because ADE is a state agency. Arizona statute states rules and operating requirements in terms of fiscal year.

The term "school year" is used rarely in the SAIS system and its rules. The term "school year" refers specifically to the regularly scheduled instructional year (it does not include summer school). LEA's and schools throughout Arizona have widely varying start and end dates, in some rare cases even spanning more than one fiscal year.

## Activity Codes

Note that all **Activity Codes** must be submitted to SAIS in FY2005. ADE will conduct an additional year of parallel testing of the Year End Enrollment report to verify that submitted activity codes match aggregated Year End Enrollment figures, but keep in mind that failure to submit all required Activity Codes negatively affects AYP.

## Student Grade/Age Validations

Beginning in FY2005, SAIS will perform the same age/grade validations for all students, regardless of the subject area (regular instruction, SPED, language, support programs, etc.). The following table depicts those validations.

**Table 19: Age Validations for Funding Purposes**

Grade/Age	Age Validation	Stipulations

## Submission File Format Definition

### General Definitions

The file that contains detail transactions shall be referred to as **Student Data File (SDF)**.

Files are submitted via one of two methods. The first method is via the web page. The web page knows the submitting LEA's Entity ID and places any submitted files into a specific directory which is named for that Entity ID. The second method is similar, but occurs through a utility to be used inside a local LEA SAIS interface.

## File Naming Conventions

File naming requirements includes several terms: **filename string** is the complete name of the submitted file. It includes two portions: the **filename** and the **extension**. The last period (.) in the filename string separates these two portions.

The **filename string**:

- May only contain the following Permitted Characters: ASCII Characters code 33,35-37, 40-41, 43, 45, 46, 48-57, 65-90, 97-122, 123,125-126.

The **filename** is the portion to the left side of the final period (.) in the **filename string**.

- It must be less than or equal to 126 characters in length.
- It includes everything to the left side of the final “period” in the string, including any periods and what follows them.
- It must be guaranteed by the LEA to be unique.
- Some suggestions for achieving this uniqueness:
  - include Date/Time in the filename;
  - include system-generated sequence numbers in the filename.
- A suggestion to improve file maintenance:
  - include CTDS somewhere in the filename. For districts, CTDS is CTD + 000 for school.

The **extension** is the portion to the right of the last period in the **filename string**.

- It has a set value. It must be the three characters **SDF**.
- It is case insensitive. Uppercase and lowercase characters, or a combination of both, are permissible. In other words, while "SDF", "sdf", and "sDf" are” are some of the many acceptable versions of **extension**, each will be evaluated the same by SAIS.

### Examples of allowable filename strings

- Containing CTD, date, time, and extension:

```
010520_1999-08-12_131535.SDF
```

- Containing extension, guaranteed to be unique relative to all other submissions, past and future:

```
Hi there - this is a file.sdf
```

- Typical DOS output in 8.3 format, uses system sequence numbers:

```
00001232.SDF
1232.sdf
```

## Internal File Structure Definition

The letters enclosed in parentheses in the data type column are used in transaction descriptions throughout this document.

**Table 20: Internal File Structure Definition: Delimiters & Data Types**

Token	Data type	Format	Delimiter	Description
transaction / record	n/a	n/a	ASCII(0d13) ASCII(0d10)	carriage-return followed by a line-feed (on same line)
Field	n/a	n/a	,	a single comma at the end of a field
(field)	code (C)	A or N	{ }	alphanumeric or integer value, depending upon the individual code; enclosed within curly braces

Token	Data type	Format	Delimiter	Description
(field)	date (D)	CCYY/MM/DD	##	century, year, month, day – separated by forward slashes; enclosed with pound symbols
(field)	integer (I)	-N	none required	This number may NOT contain a decimal point. A minus preceding the number signifies a negative value.
(field)	logical / Boolean (L)	0 OR 1	none required	must be zero (no, false, off) or one (yes, true, on)
(field)	real (R)	-N.N	none required	This number MUST contain a decimal point. Pad with at least a single zero to the right of the decimal point. A minus preceding the number signifies a negative value.
(field)	string / character (S)	A	""	string containing alphanumeric and special characters; enclosed within double quotation marks
(field)	time (T)	HH:MM:SS:FS	##	hour, minute, second, fraction of a second – separated by colons; enclosed with pound symbols.  <b>Note:</b> fraction of a second (:FS) is optional.

### File Header Requirement

Should conform to the delimiter requirements above and contain the following elements in the following order.

**Table 21: File Header Requirement**

Order	Data type	Content	Optionality
1	string	the letter <b>H</b> , by itself	required
2	string	hard-coded file identifier string: <b>Student Detail</b>	required
3	string	the LEA identifier	required
4	integer	LEA file sequence number <ul style="list-style-type: none"> <li>between 1 and 2,147,483,647</li> <li><i>file sequence number MUST begin with 1</i></li> <li>this will allow a single daily submission to be generated for 11,767,033 years.</li> </ul>	required
5	date	date 1	optional
6	time	time 1	optional
7	date	date 2	optional
8	time	time 2	optional
9	date	date 3	optional
10	time	time 3	optional
11	integer	fiscal year	required
12	string	reporting unit	optional

Order	Data type	Content	Optionality
13	code	student management system (see Transaction Code Values document for the code value associated with each individual SMS product)	required

### Sample file header

The following header would appear on a single line at the top of the submitted file.

```
"H", "Student Detail", "010203000", 006, #1999/08/01#, #00:00:01#,
#1999/08/31#, #23:59:59#, #1999/09/10#, #06:15:00#,2000,"unit 1",{1}
```

This would describe a file that was generated for the district whose CTD is 010203 (the district-level "school" identifier is 000). The sequence number is 006, and the zeros are not necessary, but are accepted. It shows that the data relates to fiscal year 2000.

The date/time fields are provided for the submitter's benefit; the submitter may utilize these fields any way they see fit. For example, if this submitter defines "date/time 1" and "date/time 2" as the period begin and end when changes contained in this file were accepted into their system and "date/time 3" as when the file was generated, then this file header information indicates that the file includes data changes that occurred anytime during the month of August 1999 (from midnight August first through one second before midnight on August 31); the file was generated on September 10<sup>th</sup> at 6:15 am. **No reasonability checks will be done on the "date" or "time" fields in the file header.**

The file would also indicate that the reporting unit "unit 1" inside the LEA is submitting its sequence number 006.

This field provides additional functionality for those LEA's that have multiple areas or departments submitting files, and each area requires control over the sequence number. For instance, this field is used by many LEA's to differentiate membership, SPED and language reporting units. If a submitter uses reporting units "ADM" and "SPED", ADM will have sequence numbers 1, 2, 3... and SPED its own sequence numbers 1, 2, 3... Otherwise, this field may be omitted.

### File Footer Requirement

Should conform to the delimiter requirements above and contain the following elements in the following order.

Order	Data type	Content	Optionality
1	string	the letter F, by itself	required
2	integer	the number of transaction records in the file: includes the header and the footer	required

### Sample file footer

The following footer would appear on a single line at the top of the submitted file.

```
"F", 037
```

This would describe a file that contains 37 records: one header, one footer, and 35 transaction records.

### Case Sensitivity

SAIS will change all submitted codes (elements with data type = "C") to uppercase upon processing the submission file. The submitted value of no other elements will be altered. The complete list of elements which are submitted as codes can be found in the [Transaction Code Values](#) document.

### File Limits

SAIS will reject files exceeding the file limit: Maximum file size limit: 10 MB

# Membership

---

**Note:**

The terms "enroll" and "enrollment" in SAIS are used to signify when a student begins membership at a school.

This section defines the following student membership-related transactions:

- [001 Student Enrollment](#) (page 34)
- [002 Student Readmission](#) (page 43)
- [003 Student Withdrawal](#) (page 48)
- [004 Student Absence](#) (page 52)
- [005 Student Personal Information](#) (page 54)
- [006 Student Membership Change](#) (page 60)
- [007 Student DOR Transfer](#) (page 62)
- [008 Student FTE](#) (page 66)
- [009 Student Grade Transfer](#) (page 73)
- [010 Student Payer Factors](#) (page 77)
- [016 Student Year End Status](#) (page 81)
- [017 Student Attendance](#) (page 83)
- [018 Student Summer Withdrawal](#) (page 87)
- [020 Community College Classes](#) (page 92)
- [022 Student Test Label](#) (page 94)

The [001 Student Enrollment](#) (page 34) and the [005 Student Personal Information](#) (page 54) transactions add new membership and student information to the Student Database.

Corrections and changes to SAIS elements are accomplished also by submitting transactions. For a list of the proper transaction to be used to change each data element, see the chapter [How To Change Specific SAIS Elements](#) (page 133).

## 001 Student Enrollment

---

In general, schools are expected to admit children who reside in the school district and who meet the requirements for enrollment in one of the grades or programs offered in the school. An enrollment transaction is required for any person that generates state educational funds (whether or not he or she receives instruction in a state school) and who meets age requirements for the grade attended. There are two enrollment transactions, one reflecting the admission of a new student to a school or the continuing enrollment of a student as of the first day of school, and the other reflecting the readmission of a student to a school.

SAIS requires an Enrollment transaction for a student enrolling in a school for the first time and for a student who continues to be enrolled as of the first day of school each fiscal year. The Student ID must be used, in addition to the School Student ID, if the student has previously been assigned an ADE Student identifier. This transaction requires:

- membership information
- personal information
- grade placement information
- previous school information

This transaction may be used to add a student's membership to the SAIS database or to delete a membership that is already on the SAIS database.

**Note:** Caution should be taken before submitting a delete operation for this transaction. Deleting a membership will cause all information associated with that membership to be deleted: withdrawal information, all FTE information, all absences and attendance, and the grade memberships.

## Transaction Elements

The following structure describes the elements in this transaction.

**Table 22: 001 Student Enrollment Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 001	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	
Operation Code	OPRCD	1	S	A = Add a new or continuing membership D = Delete an existing membership	
Entity ID	ENTITYID	9	S	School identifier; CTDS code	
School Student ID	SCHLSTUID	12	S	School-generated student identifier	
Student ID	STUDENTID	10	I	ADE-generated student identifier	
First Day of Membership	ENRDATE	10	D	The day this membership started; the date the student first received instruction for this membership.   <b>Note:</b> In SAIS, the terms "First Day of Membership" and "Enrollment Date" are used interchangeably.	
Track Number	TRACK	4	I	For schools or districts with multiple tracks, identifies the track to which this membership applies. (If the school does not have its own calendar, it will use the district's calendar.)	
Membership Type	MEMTYPE	1	C	Indicates whether this is the main, ancillary, or AOI membership for this student  <i>See Code Values – Membership Type</i>	FY2006
First Name on Legal Document	FIRSTNM	30	S	Student first name as it appears on the legal document provided for registration	
Middle Name on Legal Document	MIDDLENM	30	S	Student middle name as it appears on the legal document provided for registration	
Last Name on Legal Document	LASTNM	40	S	Student last name as it appears on the legal document provided for registration	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Name Extension on Legal Document	EXTNNM	3	S	Suffix to Student Last Name on Legal Document, e.g., Jr., Sr., III	
Nickname Student Goes By	NICKNM	30	S	A familiar form of a name given instead of or in addition to the student's first, middle, and/or last name. This may be the same as First Name on Legal Document.	
Last Name Student Goes By	LASTNMGOESBY	40	S	The last name the student goes by. This may be the same as Last Name on Legal Document.	
Gender Code	GENDERCD	1	C	Student gender <i>See Code Values – Gender</i>	
<i>Empty field: Ethnicity Code</i>	<i>empty field: formerly ETHNICCD</i>	3	C	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	This field, Ethnicity Code, replaced by six federally mandated ethnicity/race fields for FY2011.
Birth Date	DOB	10	D	Student date of birth	
Country of Birth Code	CTRYBRTHCD	2	C	Country in which student was born <i>See Code Values – Country</i>	
State of Birth Code	STATBRTHCD	2	C	State in USA or its territories in which student was born <i>See Code Values – States</i>	
<i>empty field: formerly Foreign Exchange Indicator: element no longer collected</i>	<i>empty field: formerly FORGNXCHG</i>	1	L	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	
Normal Graduation Year	NORMGRADYR	4	I	The student's class affiliation, defined by Arizona as 4 years after student's first membership in 9 <sup>th</sup> grade.	
Funded District of Residence	DISTRESID	9	S	School district in which student resides or to which student's residence is assigned; CTDS code	
Home Language Code	HMLANGCD	2	C	The language spoken at home <i>See Code Values – Home Language</i>	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Responsible Party's First Name on Legal Document	MOMFIRSTNM	30	S	The first name of the adult responsible for the student (mother, father, guardian, responsible party, or the student himself if he is emancipated) as it appears on a legal document used for registration. This is used for matching purposes only.	
Responsible Party's Last Name on Legal Document	MOMLASTNM	40	S	The last name of the adult responsible for the student (mother, father, guardian, responsible party, or the student himself if he is emancipated) as it appears on a legal document used for registration. This is used for matching purposes only.	
Tribal Name	TRIBALNM	20	S	A name borne in common by members of a tribe or clan. This is used only to match a new student to an existing SAIS record.	
Enrollment Activity Code	ACTVCD	3	C	Type of membership activity. This is the "E" code. <i>See Code Values – Activity</i>	
Student Membership FTE	MBRFTE	4	C	The full-time equivalency of the student's participation in the school regular program for this membership <i>See Code Values – Student Membership FTE</i>	
<i>empty field: formerly School Membership Share: element no longer collected</i>	<i>empty field: formerly MBRSHR</i>	4	C	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	
Special Enrollment Code 1, 2, 3	SPECENRCD	2	C	Special dispensation granted for a membership (e.g., CEC-B) allowing the student to attend this school, which is outside his normal district of residence <i>See Code Values – Special Enrollment</i>	
Tuition Payer Code	TUITPAYRCD	2	C	Individual or organization responsible for the tuition <i>See Code Values – Tuition Payer</i>	
<i>empty field (formerly Neighborhood School Indicator: element no longer collected.</i>	<i>empty field: formerly NEIGHSCHL</i>	1	L	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Grade Level Code	GDLVLCD	3	C	The grade to which the student is assigned <i>See Code Values – Grade</i>	
Concurrent School Entity ID	CNCSCH	9	S	other Arizona school attended by the student concurrently; CTDS code	
Concurrent School Student ID	CNCSCHSTUID	12	S	School-generated student identifier assigned by <u>Concurrent School Entity ID</u>	
Previous School Entity ID	PREVSCHLID	9	S	School identifier of school attended prior to this school; CTDS code <b>if</b> Arizona school, blank if a non-Arizona school. This information is required only for students who transferred from another Arizona school.	
Previous School Student ID	PREVSTUID	12	S	Student identifier in <u>Previous School Entity ID</u> ; School-generated student identifier <b>if</b> <u>Previous School Entity ID</u> is Arizona school, blank if a non-Arizona school. This information is required only for students who transferred from another Arizona school.	
Previous State Code	PREVSTATE	2	C	State in which the previous school was located. This information is required only for students who transferred from a school in the United States. <i>See Code Values – States</i>	
Register ID	REGISTERID	4	I	Identifier allocated by the district for the attendance reporting unit to which this student is assigned by this school. An example of a reporting unit might be grade level within a school, or a classroom within a grade level. (Taken from ADM reporting bubble sheet, form ADE 41-006B Rev. 7/96.)	
Hispanic/ Latino	HI	1	L	A person of Cuban, Mexican, Puerto Rican, or other Spanish culture or origin, regardless of race. Value = “1” or “0” (1 = YES, 0 = NO)	NEW FIELD effective FY2011 Required.
American Indian or Alaskan Native	AM	1	L	Person has origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment. Value “1” = YES	NEW FIELD effective FY2011.

Field name	Abbreviated name	Len	Data type	Description	Remarks
Asian	AS	1	L	Person has origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. Value "1" = YES	NEW FIELD effective FY2011.
Black or African American	BL	1	L	Person has origins in any of the black racial groups of Africa. Value "1" = YES	NEW FIELD effective FY2011.
Native Hawaiian or other Pacific Islander	PI	1	L	Person has origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. Value "1" = YES	NEW FIELD effective FY2011.
White	WH	1	L	Person has origins in any of the original peoples of Europe, the Middle East, or North Africa. Value "1" = YES	NEW FIELD effective FY2011.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The "change" operation is not valid for this transaction.

## Element Optionality

This table defines whether each element is optional or required for each combination of Membership Type, and Operation Code, and whether the student is new to SAIS (not all but some E3, E6, E11, and E15 enrollments).

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

- R: the element is required
- X: any value in the submitted element will be ignored
- {blank}: the element is optional; a valid value will be captured in SAIS

**Table 23: Student Enrollment Transaction Element Optionality**

1. Previous School Entity ID has predefined code values if the school is an Arizona school.
2. A blank, missing, or null Special Enrollment Code signifies that this is a normal enrollment.
3. Normal Graduation Year is required for all high school students who are not special needs-only students.
4. Country of Birth Code is always required **except if the country is the USA or one of its territories or holdings** (but the values for the USA or its territories or holdings may be submitted).
5. State of Birth Code is always required **if the country is the USA or one of its territories or holdings**. If the country was not the USA, its territories or holdings, then this field may be left blank OR the code "ZZ" (the value for "not a US state, territory, or Armed Forces or other holding") may be populated here.
6. Ethnicity Options: (effective FY2011) select one or more of Hispanic/ Latino, American Indian or Alaskan Native, Asian, Black or African American, Native Hawaiian or other Pacific Islander, White.

## Student Identifiers

**Figure 1: Determining the SAIS Student ID for Enrollment Transaction**

The above diagram depicts how to find an existing SAIS Student ID for the *001 Student Enrollment* (page 34) transaction.

A new *001 Student Enrollment* (page 34) allows up to four sets of student identifiers on the transaction. If the submitted identifiers\* point to different students on the SAIS database, SAIS will reject the transaction.

\* Except for previous student information.

Note the following difference between the process for New Membership (defined as students new to the Arizona SAIS system — some, but not all, *001 Student Enrollment* (page 34) transactions with Enrollment Activity Code = E3, E6, E11, and E15) and that for all other transactions.

- Optionality of identifiers.

Element	Description	Student Enrollment transaction for New Membership	All other transactions
<u>School Student ID</u>	school-generated student identifier	required	optional
<u>Student ID</u>	ADE-generated student identifier	optional	required

- A new SAIS-generated student identifier (Student ID) can only ever be generated for a New Membership. As stated above, a New Membership would be a student with an Enrollment Activity Code of E3 or E6; some E11's or E15's might be eligible as well (if he or she was never a student in Arizona before going to the detention facility).
- The SAIS-generated student identifier is required for the *001 Student Enrollment* (page 34) when Enrollment Activity Code is not E3 or E6 or E11 or E15 and the student is not new to Arizona.
- The SAIS-generated student identifier is required for all other transactions not covered above.
- Only *001 Student Enrollment* (page 34) collects previous school information.
- Only *001 Student Enrollment* (page 34) collects concurrent school information.

## 002 Student Readmission

A student who has been withdrawn from a school and resumes his or her membership will require a readmission transaction. The *002 Student Readmission* (page 43) transaction creates the same entities that the *001 Student Enrollment* (page 34) transaction creates, with the exception that the readmission cannot create a new student on SAIS. The difference between the two transactions is related to timing: a membership must already exist for this student earlier in the same fiscal year, so the *002 Student Readmission* (page 43) transaction requires less information. The *002 Student Readmission* (page 43) transaction requires:

- Membership information
- Grade placement information
- Readmission activity code

### Transaction Elements

The following structure describes the elements in this transaction.

**Table 24: 002 Student Readmission Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 002	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Operation Code	OPRCD	1	S	A = Add a new readmission D = Delete an existing readmission	
Entity ID	ENTITYID	9	S	School identifier; CTDS code	
School Student ID	SCHLSTUID	12	S	School-generated student identifier	
Student ID	STUDENTID	10	I	ADE-generated student identifier	
Readmission Date	READMDATE	10	D	The date this activity occurred	
Track Number	TRACK	4	I	For schools or districts with multiple tracks, identifies the track to which this membership applies. (If the school does not have its own calendar, it will use the district's calendar.)	
Membership Type	MEMTYPE	1	C	Indicates whether this is the main or ancillary membership for this student <i>See Code Values – Membership Type</i>

Grade Level Code	GDLVLCD	3	C	The grade to which the student is assigned <i>See Code Values – Grade</i>	
Register ID	REGISTERID	4	I	Identifier allocated by the district for the attendance reporting unit to which this student is assigned by this school. An example of a reporting unit might be grade level within a school, or a classroom within a grade level. (Taken from ADM reporting bubble sheet, form ADE 41-006B Rev. 7/96.)	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The "change" operation is not valid for this transaction.

## Element Optionality

This table defines whether each element is required or optional for each combination of Membership Type and Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

- R: the element is required
- X: any value in the submitted element will be ignored
- {blank}: the element is optional; a valid value will be captured in SAIS

## Matching Re-Admission to Membership on SAIS

### Matching Re-Admission to Membership on SAIS

**Figure 2: Matching Re-Admission to Membership on SAIS**

The above diagram shows how to find the correct membership for a *002 Student Readmission* (page 43) "add" operation.

The following table lists the Activity Codes used for regular school year withdrawals (W...).

**Table 26: Withdrawal & Readmission Activity Codes**

Withdrawal Activity Code	Explanation	Corresponding Readmission Activity Code
W1	Transfer: other school	R1: readmitted after a W1
W2	Illness	R2: readmitted after a W2
W3	Expelled or long term suspension	R3: readmitted after a W3
W4	Absence or status unknown	R4: readmitted after a W4
W5	Dropout	R5: readmitted after a W5
W6	Not of school age	R6: readmitted after a W6
W7	Early graduation	(not eligible)
W8	Deceased	(not eligible)
W9	Transfer: home taught	R9: readmitted after a W9
W10	Transfer: detention	R10: readmitted after a W10
W11	GED	R11: readmitted after a W11
W12	Vocational school	R12: readmitted after a W12
W13	Completed (AIMS)	(not eligible)
WT	Transferred to other grade in the same school. WT's are not submitted; rather, SAIS automatically assigns this code upon receipt of a <a href="#">009 Student Grade Transfer</a> (page 73).	(not eligible)

## 003 Student Withdrawal

A withdrawal is an activity that defines a student's exit from school prior to the school's regularly scheduled year-end date. The transaction requires identifying information and a withdrawal category ([Withdrawal Activity Code](#)).

[Withdrawal Activity Codes](#) categorize early exits. This includes among other things dropout, completion of minimal high school requirements, early graduation, transfer to another school, and excessive consecutive unexcused absence. This also includes virtual exit reasons such as age: the student who reaches age 22 before year-end is no longer eligible for generating funding. The student is not required to leave school, but a virtual [Withdrawal Activity Code](#) is issued to exclude that portion of enrollment for the student, so that the funding recipient does not over-anticipate their payment. The [Withdrawal Activity Codes](#) can be found in [Table 26: Withdrawal & Readmission Activity Codes](#) (page 48) in the earlier section discussing the [002 Student Readmission](#) (page 43) transaction.

### Note on Enrollments, Withdrawals, and Readmissions

A student may be readmitted after a withdrawal, provided the [Withdrawal Activity Code](#) is eligible for a subsequent readmission. An example of a [Withdrawal Activity Code](#) ineligible for readmission is "deceased".

After a withdrawal, a readmission is required for a student to resume attendance in the same school during the same school year. If a student has excessive (ten or more) unexcused absences, the district should submit a [003 Student Withdrawal](#) (page 48) transaction to remove him from their school roster. (See **Instructions for Required Reports; Withdrawal Codes**, A.R.S. § 15-803.C, and A.R.S. § 8-201.) If so, a [002 Student Readmission](#) (page 43) transaction will be required if and when the student resumes attendance.

If a student transfers from one school to another school during the same school year, then the first district should submit a [003 Student Withdrawal](#) (page 48) transaction to remove him from their school roster, and the new

school should submit a *001 Student Enrollment* (page 34) transaction to begin membership for the student in his/her school.

*If a 002 Student Readmission* (page 43) is received before the *003 Student Withdrawal* (page 48), the readmission will be rejected until the withdrawal is received and processed.

*There is no limit to the number of withdrawals, and readmissions a student may have in a single school year. Readmissions are granted solely at the discretion of the school district.*

*First Day of Membership is the starting date of the prior membership (can be either an original membership or a readmission).*

## ER/WR (Register Transfers)

Enrollment/Withdrawal Codes of ER/WR are not accepted by SAIS. To notify ADE when a student moves from one register to another during a single school year, use the *009 Student Grade Transfer* (page 73) transaction.

[Some schools use Register ID to identify students in a self-contained setting, so they can determine whether a student is funding-generating or not (e.g., preschool students only generate funding for ADM if they are placed in a self-contained setting). ADE has no way to know which Register IDs reflect funding situations and which ones do not.]

In SAIS, regardless of the Register ID the child is assigned to, his Tuition Payer Code must reflect whether he is funding-generating (code value 1) or not funding-generating (code values 2 and 3) for every day of his membership. This is accomplished with the *010 Student Payer Factors* (page 77) transaction.

## Withdrawal on last scheduled day of school

With the exception of W8 codes, a student is not eligible to withdraw on the last scheduled day of school. There are several rules associated with withdrawals, each of which supports this.

- A withdrawal means that the student left school BEFORE the last scheduled day of school.
- A withdrawal means that the student was in membership on the day of withdrawal, and that he attended at least part of that day.
- If a student was in attendance (even just for a partial day) on the last day of school, then he completed the year, he did not withdraw early.

## Automatic Withdrawals

**Note:** Beginning with FY2003-2004, when SAIS receives a withdrawal for a student, SAIS will no longer issue an automatic exit from other related events (such as Grade). This change is due to inconsistent processing for some conditions. Rather, SAIS processing will leave all related information in the state in which it was left by the submitter.

Before withdrawing a student, all LEAs are advised to delete any events (transactions) that have been submitted for a participation date falling later than the withdrawal date. The reason for this is that after the new withdrawal has been added to SAIS, these events (transactions) will become orphaned and will not be able to be deleted. If attempts are made to delete them, those deletes will error out. (6/18/2003)

## Withdrawal Reason Codes

Beginning with the 2004-05 school year, SAIS users are required by NCLB legislation to capture and report the new student level element Withdrawal Reason Code. Withdrawal Reasons are a secondary reason for the withdrawal (the primary reason being the Withdrawal Activity Code). Withdrawal Reasons are optional, and will not apply to the great majority of students who withdraw from school prior to the last scheduled day of session.

There will be no ADM funding impact related to the Withdrawal Reason Codes.

Since the validity of Withdrawal Reason Code depends on elements that can be changed in other transactions, the validation is not done here in Transaction Processing, but later in Integrity Checking Processing.

## Transaction Elements

The following structure describes the elements in this transaction.

**Table 27: 003 Student Withdrawal Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 003	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	
Operation Code	OPRC	1	S	A = Add a new withdrawal C = Change an existing withdrawal D = Delete an existing withdrawal	
Entity ID	ENTITYID	9	S	School identifier; CTDS code	
School Student ID	SCHLSTUID	12	S	School-generated student identifier	
Student ID	STUDENTID	10	I	ADE-generated student identifier	
First Day of Membership	ENRDATE	10	D	The day this membership started; the date the student first received instruction for this membership.   <b>Note:</b> In SAIS, the terms "First Day of Membership" and "Enrollment Date" are used interchangeably.	
Track Number	TRACK	4	I	For schools or districts with multiple tracks, identifies the track to which this membership applies. (If the school does not have its own calendar, it will use the district's calendar.)	
First Name on Legal Document	FIRSTNM	30	S	Student first name as it appears on the legal document provided for registration	
Middle Name on Legal Document	MIDDLENM	30	S	Student middle name as it appears on the legal document provided for registration	
Last Name on Legal Document	LASTNM	40	S	Student last name as it appears on the legal document provided for registration	
Withdrawal Activity Code	ACTVCD	3	C	Type of withdrawal. This is the "W" code.  <i>See Code Values – Activity</i>	
Withdrawal Date	WDDATE	10	D	The withdrawal activity date. This is the last day of attendance.	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Withdrawal Reason Code	WDREASONCD	3	C	The supplemental reason for the withdrawal activity that occurred. <i>See Code Values – Withdrawal Reason</i>	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Withdrawal Activity Code
- Withdrawal Reason Code

## Element Optionality

This table defines whether each element is required or optional depending on Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

## 004 Student Absence

If a student has missed a portion of a day or a whole day during a school day, a *004 Student Absence* (page 52) transaction for this school day has to be submitted. The *004 Student Absence* (page 52) transactions, which cover **at most** one school day of the absence period, should be submitted only after the student has resumed attendance and the absence amount and reason have been resolved for each day. There might be more than one transaction per school day: for example, a child may have a half day absence for an unexcused reason for the first part of the school day and a half day absence for an excused reason the second part of the school day.

From FY2007 forward, SAIS allows reporting of full-day absence on the first day of the calendar track to which the student is assigned. This will apply only to a student if his/her enrollment date is equal to the first day of the calendar track to which the student has been assigned.

Changes to Absence Date are not allowed. Correction of an Absence Date requires submission of a Delete operation for the erroneous absence (with the previously reported Absence Date), and submission of an Add operation for the correct absence (with the correct Absence Date).

It is possible for a student's instructional time to be submitted to ADE using the metric of attendance time rather than absence time. For further information on this, see the *017 Student Attendance* (page 83) transaction. Pay particular attention to the section titled *Submitting both absence and attendance* (page 84).

**Note:** Absences should be reported for all students using this *004 Student Absence* (page 52) transaction, however, if a student's instructional time is reported to SAIS using the Student Attendance transaction, then absences are not required in the initial implementation of SAIS. This requirement will be added at a later date.

### Transaction Elements

The following structure describes the elements in this transaction.

**Table 29: 004 Student Absence Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Absence Amount

## Element Optionality

This table defines whether each element is required or optional depending on Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

**Table 30: Student Absence Transaction Element Optionality**

1. This element must be different from SAIS for this to be a valid "change".
2. Even though the absence amount code is optional for a "delete" operation, it will be validated if supplied.

## 005 Student Personal Information

This transaction is used to create a new student on SAIS for whom there will be no memberships. In pre-SAIS terms, an example of this would be a student who is ineligible for generating ADM funding but who does generate SPED funding. In this scenario, no membership data is required by SAIS but we must know personal information about the student. In this situation a [005 Student Personal Information](#) (page 54) transaction would be submitted.

This transaction can also be used to submit changes to any element of a student's personal information and to fix data entry errors. "Personal information" is comprised of the characteristics of the student **which are independent of his membership in a school**: these characteristics include name, gender, and birth date. The only allowable operations for this transaction are an Add or a Change operation.

**Note:** SAIS will retain fundamental "student" information from only the most recent main school during a single fiscal year.

## Transaction Elements

The following structure describes the elements in this transaction.

**Table 31: 005 Student Personal Information Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 005	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	
Operation Code	OPRCD	1	S	A = Add only a student's characteristics to SAIS C = Change student's existing characteristics	
Entity ID	ENTITYID	9	S	School identifier; CTDS code

Normal Graduation Year	NORMGRADYR	4	I	The student's class affiliation, defined by Arizona as 4 years after student's first membership in 9 <sup>th</sup> grade.	
Home Language Code	HMLANGCD	2	C	The language spoken at home <i>See Code Values – Home Language</i>	
Responsible Party's First Name on Legal Document	MOMFIRSTNM	30	S	The first name of the adult responsible for the student (mother, father, guardian, responsible party, or the student himself if he is emancipated) as it appears on the legal document provided for registration. This is used only to match a new student to an existing SAIS record.	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Responsible Party's Last Name on Legal Document	MOMLASTNM	40	S	The last name of the adult responsible for the student (mother, father, guardian, responsible party, or the student himself if he is emancipated) as it appears on the legal document provided for registration. This is used only to match a new student to an existing SAIS record.	
Tribal Name	TRIBALNM	20	S	A name borne in common by members of a tribe or clan. This is used only to match a new student to an existing SAIS record.	
Previous School Entity ID	PREVSCHLID	9	S	School identifier of school attended prior to this school; CTDS code if Arizona school, blank if a non-Arizona school. This information is required only for students who transferred from another Arizona school.	
Previous School Student ID	PREVSTUID	12	S	Student identifier in <u>Previous School Entity ID</u> ; School-generated student identifier if <u>Previous School Entity ID</u> is Arizona school, blank if a non-Arizona school. This information is required only for students who transferred from another Arizona school.	
Previous State Code	PREVSTATE	2	C	State in which school attended prior to this school dwells. This information is required only for students who transferred from a school in the United States and is applicable to "add" transactions only.  <i>See Code Values – States</i>	
Hispanic/ Latino	HI	1	L	A person of Cuban, Mexican, Puerto Rican, or other Spanish culture or origin, regardless of race. Value = "1" or "0" (1 = YES, 0 = NO)	NEW FIELD effective FY2011 Required.
American Indian or Alaskan Native	AM	1	L	Person has origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment. Value "1" = YES	NEW FIELD effective FY2011.
Asian	AS	1	L	Person has origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. Value "1" = YES	NEW FIELD effective FY2011.

Field name	Abbreviated name	Len	Data type	Description	Remarks
Black or African American	BL	1	L	Person has origins in any of the black racial groups of Africa. Value "1" = YES	NEW FIELD effective FY2011.
Native Hawaiian or other Pacific Islander	PI	1	L	Person has origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. Value "1" = YES	NEW FIELD effective FY2011.
White	WH	1	L	Person has origins in any of the original peoples of Europe, the Middle East, or North Africa. Value "1" = YES	NEW FIELD effective FY2011.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- New First Name on Legal Document
- New Middle Name on Legal Document
- New Last Name on Legal Document
- Name Extension on Legal Document
- Nickname Student Goes By
- Last Name Student Goes By
- Gender Code
- *Ethnicity Code (not used after FY2011)*
- Birth Date
- Country of Birth Code
- State of Birth Code
- Normal Graduation Year
- Home Language Code
- Responsible Party's First Name on Legal Document
- Responsible Party's Last Name on Legal Document
- Tribal Name
- Ethnicity (after FY2011), select 1 or more of:
  - Hispanic/ Latino
  - American Indian or Alaskan Native
  - Asian
  - Black or African American
  - Native Hawaiian or other Pacific Islander
  - White

## Element Optionality

This table defines whether each element is required or optional.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R:	the element is required
X:	any value in the submitted element will be ignored
{blank}:	the element is optional; a valid value will be captured in SAIS

As documented in the chapter [How To Change Specific SAIS Elements](#) (page 133), a "change" operation is a full replacement of the SAIS data. In other words, it will update SAIS with every element on the submitted transaction. The elements below that are designated as required are those elements which require a non-null value on SAIS. For

instance, every student must have a declared gender, a real birth date, and a first and last name. Alternatively, not every student will have a tribal name.

**Table 32: Student Personal Information Transaction Element Optionality**

Element	Add	Change	Element	Add	Change
Transaction ID	R	R	Birth Date	R	R
Vendor Defined Field	X	X	Country of Birth Code	5	5
Operation Code	R	R	State of Birth Code	6	6
Entity ID	R	R	<i>element no longer collected: Foreign Exchange Indicator</i>	X	X
School Student ID	R	R	Normal Graduation Year	X (1)	1
Student ID		R	Home Language Code	R	R
<i>element no longer collected: Capture Date</i>	X	X	Responsible Party's First Name on Legal Document	R	R
Old First Name on Legal Document		R	Responsible Party's Last Name on Legal Document	R	R
Old Middle Name on Legal Document			Tribal Name		
Old Last Name on Legal Document		R	Previous School Entity ID	2	X
New First Name on Legal Document	R	R	Previous School Student ID	3	X
New Middle Name on Legal Document			Previous State Code	4	X
New Last Name on Legal Document	R	R	Hispanic/ Latino	7	7
Name Extension on Legal Document			American Indian or Alaskan Native	7	7
Nickname Student Goes By			Asian	7	7
Last Name Student Goes By	R	R	Black or African American	7	7
Gender Code	R	R	Native Hawaiian or other Pacific Islander	7	7
<i>element no longer collected: Ethnicity Code effective FY2011</i>	X	X	White	7	7

1. Normal Graduation Year is required for all high school students who are not special needs-only students. Therefore, since by definition the "add" is performed only for special needs-only students, this element will be ignored for the "add" operation and it will not be populated to the SAIS database.
2. Previous School Entity ID is only required on an "add" operation for a transferring student, and only if the student previously attended a school in the Arizona state school system. The Previous School Entity ID has a predefined code value: the school's CTDS code.
3. Previous School Student ID is required only when Previous School Entity ID contains a value. At all other times it must be blank.
4. Previous State Code is required only for an "add" operation for a transferring student, and only when Previous School Entity ID is blank. If this is not a US state, it may contain the code ZZ (the value for "not US"), or it may remain blank. The Previous State Code cannot be changed once the student's personal information is added to SAIS.

5. Country of Birth Code is always required **except when the value is the USA**. If the Country of Birth was the USA, then this field may contain the code US (the value for "United States") or UM ("US Minor Outlying Islands"), or it may remain blank.
6. State of Birth Code is always required **except when the Country of Birth Code is not USA**. If the Country of Birth was not the USA, then this field may contain the code ZZ (the value for "not US"), or it may remain blank.
7. Ethnicity Options: (effective FY2011) select one or more of Hispanic/ Latino, American Indian or Alaskan Native, Asian, Black or African American, Native Hawaiian or other Pacific Islander, or White.

## 006 Student Membership Change

This transaction is designed to capture membership-related elements that can change independently of personal information or district of residence. The set of elements in one *006 Student Membership Change* (page 60) transaction are unique to one single membership for a student.

This transaction should be used when one of the following membership-related elements is either incorrect on SAIS or has changed during the term of this membership.

**Note:** At this time, there is no method by which a Track Number can be changed mid-year. Withdrawing the student and readmitting him with the new track number must accomplish this.

### Changing a Register ID Mid-Year

Enrollment/Withdrawal Codes of ER/WR are not accepted by SAIS. To notify ADE when a student moves from one register another during a single school year, use the *009 Student Grade Transfer* (page 73) transaction.

**Note:** Some schools use Register ID to identify students in a self-contained setting, so they can determine whether a student is funding-generating or not (e.g., preschool students only generate funding for ADM if they are placed in a self-contained setting). ADE has no way to know which Register IDs reflect funding situations and which ones do not.

In SAIS, regardless of the Register ID the child is assigned to, his Tuition Payer Code must reflect whether he is funding-generating (code value 1) or not funding-generating (code value 2) for every day of his membership. This is accomplished with the *010 Student Payer Factors* (page 77) transaction.

### Transaction Elements

The following structure describes the elements in this transaction.

**Table 33: 006 Student Membership Change Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 006	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	
Operation Code	OPRCD	1	S	C = Change existing membership details	
Entity ID	ENTITYID	9	S	School identifier; CTDS code	
School Student ID	SCHLSTUID	12	S	School-generated student identifier	
Student ID	STUDENTID	10	I	ADE-generated student identifier	

Field name	Abbreviated name	Len	Data type	Description	Remarks
First Day of Membership	ENRDATE	10	D	The day this membership started; the date the student first received instruction for this membership.   <b>Note:</b> In SAIS, the terms "First Day of Membership" and "Enrollment Date" are used interchangeably.	
First Name on Legal Document	FIRSTNM	30	S	Student first name as it appears on the legal document provided for registration	
Middle Name on Legal Document	MIDDLENM	30	S	Student middle name as it appears on the legal document provided for registration	
Last Name on Legal Document	LASTNM	40	S	Student last name as it appears on the legal document provided for registration	
Enrollment Activity Code	ACTVCD	3	C	Type of membership (enrollment or readmission). This is the "E" or "R" Code.  <i>See Code Values – Activity</i>	
Membership Type	MEMTYPE	1	C	Indicates whether this is the main or ancillary membership for this student  <i>See Code Values – Membership Type</i>	
Track Number	TRACK	4	I	For schools or districts with multiple tracks, identifies the track to which this membership applies. (If the school does not have its own calendar, it will use the district's calendar.)

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Enrollment Activity Code
- Membership Type
- School Student ID

## Element Optionality

*This table defines whether each element is required or optional.*

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

**Table 34: Student Membership Change Transaction Element Optionality**

1. At least one of these elements must be different from SAIS for a valid "change" operation.

## 007 Student DOR Transfer

District of Residence (DOR) is an essential factor in state aid. It is captured in this transaction and in the membership enrollment transactions ( [001 Student Enrollment](#) (page 34) and [002 Student Readmission](#) (page 43)). The DOR is not necessarily the district in which the student resides. DOR as used at ADE is defined in Arizona Statute as a logical construct that enables a district to receive state money generated by a specific student's school membership, even though sometimes that district is not the one providing the educational services. Therefore, the SAIS element name is "Funded District of Residence". Logically, therefore, each membership must have its own DOR.

A student may change Funded District of Residence while continuing to attend the same school. When this happens during the school year while the student continues to attend the same school, a [007 Student DOR Transfer](#) (page 62) must be submitted to ADE. This transaction can also be used for changing the start or end date of a child's belonging to a Funded District of Residence.

FYI: If a student moves house and keeps the same funded DOR and has the same value for Neighborhood School, no transaction should be sent to SAIS.

**Note:** The DOR in this transaction refers to a membership-related DOR. It should not be confused with a DOR that relates to a SPED service. A transaction submitted here, no matter what operation code is used, will in no way effect any SPED service-related DOR on SAIS. Adds, changes, and deletes to the

DOR relating to a particular SPED service must be submitted using SPED Service Participation transaction (defined in the [Transaction Requirements: Needs](#) document).

There must be a DOR for every day of a membership

### Retroactive Changes

As stated above, there must be a DOR for every day of a membership. Because of this, retroactive changes can be made, but they require careful attention from the submitter. To record a retroactive DOR change properly with ADE, the following things are required.

- The submitter must send SAIS a [007 Student DOR Transfer](#) (page 62) "add" operation for the retroactive DOR. It should contain the retroactive DOR information in the fields prefixed with "New", including both a start date and an end date. It should also contain the recalculated end date of the DOR just prior to this one in the fields prefixed with "Old".
- SAIS will recalculate the end date of the DOR immediately preceding this new DOR to validate that the submitted information is accurate. If the submitted "old" end date isn't the school day preceding the start of this newly inserted DOR, then SAIS will issue a warning. **Warning:** This will have to be fixed at a later date, but note that all DOR information must be in sync before funding will be generated.
- If any DOR exists on SAIS whose start date overlaps with the newly added DOR, SAIS will again issue a warning. The same warning as above applies.

**Note:** Start date is a key field, and cannot be changed.

- If the deletion causes a gap in DOR coverage, then the submitter must send SAIS a [007 Student DOR Transfer](#) (page 62) "add" operation for the DOR that was effective after the end date of the newly added DOR.

**Note:** SAIS will not automatically add any DORs to the SAIS database; SAIS will merely try to align what is submitted and notify the submitter when the result is illogical.

For an illustration, see below.

scenario	submission									action	SAIS database								
	September										September

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation. They will be changed if supplied with an "add" operation and a "delete" operation.

- Old Funded District of Residence
- Old DOR End Date

## Element Optionality

This table defines whether each element is optional or required.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

- R: the element is required
- X: any value in the submitted element will be ignored
- {blank}: the element is optional; a valid value will be captured in SAIS

1. At least one of these elements must be different from SAIS for this to be a valid change.
2. If "Old Funded District of Residence" is populated, then this field is required.

## 008 Student FTE

The [008 Student FTE](#) (page 66) transaction allows addition, change, and deletion of values for Student Membership FTE.

- Student Membership FTE depicts the portion of a full instructional program (the Full-Time Equivalency) a student receives at this school during a specific period of time in this membership.

In some cases Arizona legislation sometimes sets a maximum for total FTE levels by student.

1. at one school of any type: (all tracks together) = 1.0
2. at one district of any type (all schools and tracks together) = 1.0.
3. at one regular district and one charter school district concurrently = 1.0
4. at one voc/tech participating district and one voc/tech district concurrently = 1.25

SAIS will accept an FTE value of 1.0 for an individual membership in a voc/tech school, resulting in a total FTE of up to 1.25 or even more. Because of the first rule above, during the aggregation calculation we will count no single membership as more than 1.0.

The [008 Student FTE](#) (page 66) transaction can be used to:

- Submit new values for FTE (Operation Code = A)

The end date of the previous FTE value should be calculated using the start date of the FTE and the school/student calendar. This previous end date should be the last session day preceding the submitted start date for the new FTE.

- Correct erroneous values submitted earlier for FTE (Operation Code = C)

The value of the start date of the FTE must be either the same as some existing FTE start date on SAIS, or the same as the membership First Day of Membership.

- Delete a previously submitted erroneous Add or Change operation (Operation Code = D)

The value of the start date of the FTE has to be the same as the start date of the FTE on SAIS.

When SAIS receives a "change" operation, the system will compare the submitted value to the data already on the SAIS database, and update only the item(s) that have changed.

As with Tuition Payer Code in the [010 Student Payer Factors](#) (page 77) transaction later in this document, FTE must contain some value for every single day throughout the life of the membership. The values can fluctuate

over the course of a school year. Also, their start and end dates may fall beyond the membership dates; the funding process will ignore the irrelevant days.

The first FTE is always specified in the *001 Student Enrollment* (page 34) transaction. When this value changes midway through the membership period, this *008 Student FTE* (page 66) transaction will advise SAIS of that modification. The existing FTE should be exited, with the exit date being calculated as (the new start date minus 1 day).

Because every membership day must have an FTE associated with it, retroactive changes are accepted. For retroactive changes:

- The FTE, and the start date are required fields; end date is optional.
- If other FTEs already exist on SAIS for that student during the same fiscal year, and one or more of them overlap with the submitted transaction, SAIS will issue a warning that the prior FTE needs to be exited (the prior end date = submitted transaction's start date – 1 day) and all subsequent FTEs have to be reviewed by the district for consistency. All those having incorrect dates must be deleted from SAIS for that fiscal year and possibly re-added with correct start date(s).
- If the effect of this submitted FTEs information is that it will leave a gap on SAIS during which there is no FTE for the student for even a day of the membership, SAIS will issue a warning that the new or existing FTE should be evaluated and either the start and end dates fixed or a new FTE added so that there will be no gap.

## Student Membership FTE

As stated earlier, FTE depicts the portion of a full instructional program (the **F**ull-**T**ime **E**quivalency) a student receives at this school during this period of time. It is stated in terms of quarters; allowed values are .25, .50, .75, 1.00, and 1.25 (this information is accurate as of fiscal year 2000). Because some vocational technology (e.g., EVIT or NAVIT) students are considered to have a resource load significantly exceeding full-time status, it is possible for a student to have a full-time equivalency value greater than 1.00.

FTE is initially captured in the *001 Student Enrollment* (page 34) transaction.

## FTE Rules

FTE is governed by several rules. Note that the rules governing total FTE and overall apportionment of funds are enforced not during the data submission period but during a later process, which is run prior to calculating ADM and funding. For detailed discussion on this process, see **Synchronize FTE** in the **Integrity Checking Processes** document.

## FTE & Membership Intervals

Usually a student is enrolled in one school and participates in a full instructional program in that school during the entire school year. For this student :

- the value of the FTE is 1.00
- the interval in which the membership FTE is effective is the same as the student Membership Interval in the school.

Below is a discussion of Membership Intervals, excerpted from the document titled "Aggregating Student Detail" (AggregatingStudentDetail.doc).

### Membership Intervals

Aggregation is driven by student records: for each student, sum its memberships. This process description uses "Membership Intervals" to illustrate how this summing can be done.

"Membership Interval" is an artificial construct needed as an interim step in aggregating membership and absence counts. "Membership Interval" represents a single period of time during which all elements required to group membership counts properly remain the same.

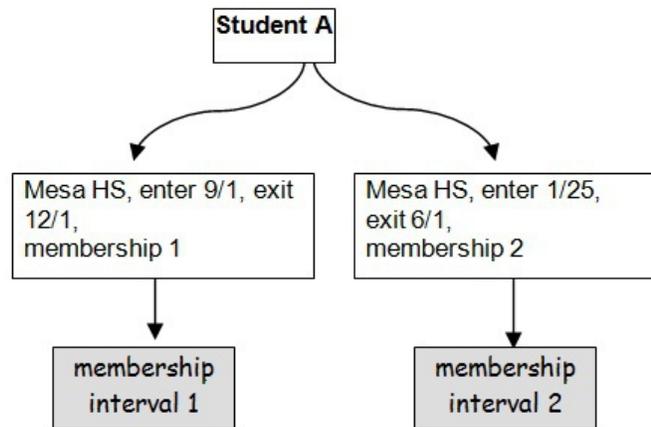

Membership Interval consists of the following elements.

- key fields for all memberships:
  - Fiscal Year
  - DOR (district of attendance)
  - School
  - Period
  - Grade
  - SPED self-contained indicator
  - FTE
- additional key fields for Non-Resident Memberships only:
  - DOR (district of residence)
  - special enrollment and tuition payer
  - Funding Recipient (this is determined by SAIS based on ADE funding policy already in place)
- non-key fields:
  - Start Date
  - End Date
  - Membership Count
  - Absence Count

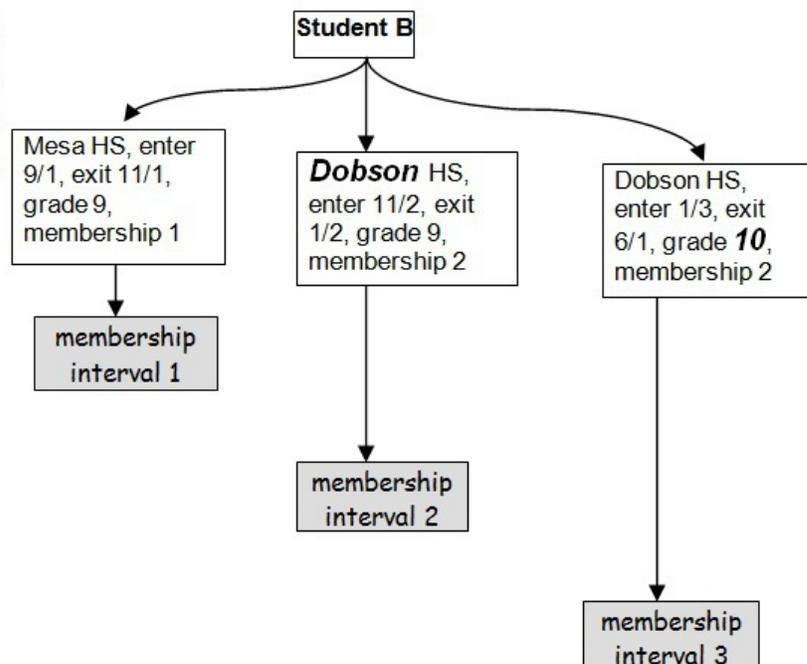

A single memberships may result in many Membership Intervals. The vast majority of students will have one membership for the entire school year and one Membership Interval as well. However, just as separate memberships will exist if the student transfers to a new school (resulting in a new key), separate Membership Intervals will be required if during a single school year the student changes any single aspect of membership. Changes to the following elements will require splitting Membership Intervals: grade, CEC code, membership FTE, or district of residence. SAIS must ensure that the entire period from membership start date to end date is contained in the resulting Membership Intervals.

Below are examples of how Membership Intervals work:

Student A has more than one school membership, with all key fields identical

Student B has more than one school membership, with some key fields different in each

**Figure 4: Membership Intervals**

Each **Membership Interval**, therefore, must have its own value for **Student Membership FTE**. When dealing with original memberships (the student's first membership in the school in the fiscal year) versus readmissions (the student's return to the same school later in the fiscal year), the **Membership Interval** is still defined in part by the membership begin and end dates.

First Membership: the time from First Day of Membership to the date of the last school day or to the date of withdrawal if the student withdraws before the last school day of regular session.

Readmitted Student: the time from readmission date to the date of the last school day or to the date of another withdrawal if the student withdraws before the last school day of regular session.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation. They will be changed if supplied with an "add" operation and a "delete" operation.

- Old Student Membership FTE
- Old FTE End Date

## Element Optionality

This table defines whether each element is required or optional.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R:	the element is required
X:	any value in the submitted element will be ignored
{blank}:	the element is optional; a valid value will be captured in SAIS

1. If any "start date" is provided, then a value for its corresponding "FTE" value must also be provided.
2. If provided, at least one of these elements must be different from SAIS for this to be a valid change.
3. At least one of these sets of elements is required for this to be a valid add or delete operation.

## 009 Student Grade Transfer

**Note:** "IEP" is not a valid grade in SAIS, since it is not a valid grade for a student membership. "IEP" is used only for student placement vis-a-vis the Vouchers program, and is used only by the Vouchers System.

This transaction is used for various reasons:

- to move a student from one grade to another, within the same school during the school year
- to fix a student's grade that was incorrectly reported by the LEA in the [001 Student Enrollment](#) (page 34) transaction.

This transaction may not be used to begin membership for a student in a new school, or to change a student's grade in advance of a new school year.

The [009 Student Grade Transfer](#) (page 73) transaction requires data on exit from the current grade and placement in a new grade.

- When a student is transferred to a different grade, an ADD operation is required.
- If the grade start date on the SAIS database is incorrect, it must be removed from the SAIS database with a DELETE operation, then the correct data must be submitted with an ADD operation.

## Promotion and Demotion during the school year

Occasionally a student is promoted to the next grade level or demoted to a lower grade level within a school year.

- If an LEA decides to promote (or demote) a student during the school year, then:
  - LEA will submit a [009 Student Grade Transfer](#) (page 73) ADD operation. This will accomplish several actions: to change the current school year grade exit status to "promoted" (or "demoted") and the grade exit date to the last day the student attended that grade, and to add the new grade placement.

## Transfer to a new grade register within the same school year

Occasionally a student will be moved from one register to another, remaining in the same grade, during a school year. This situation is a lateral grade movement, in that there is no grade level change.

Enrollment/Withdrawal Codes of ER/WR are not accepted by SAIS. To notify ADE when a student moves from one register another during a single school year, use the [009 Student Grade Transfer](#) (page 73) transaction.

**Note:** Some schools use Register ID to identify students in a self-contained setting, so they can determine whether a student is funding-generating or not (e.g., preschool students only generate funding for ADM if they are placed in a self-contained setting). ADE has no way to know which Register IDs reflect funding situations and which ones do not.

In SAIS, regardless of the Register ID the child is assigned to, his Tuition Payer Code must reflect whether he is funding-generating (code value 1) or not funding-generating (code values 2 and 3) for every day of his membership. This is accomplished with the [010 Student Payer Factors](#) (page 77) transaction.

## Promotion at the end of a school year

This functionality is provided in the *016 Student Year End Status* (page 81) transaction.

## Retention at the end of a school year

This functionality is provided in the *016 Student Year End Status* (page 81) transaction.

## No-Shows

This functionality is provided in the *018 Student Summer Withdrawal* (page 87) transaction.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation. If supplied with an "add" operation and a "delete" operation.

- Old Grade Level Code
- Old Grade Exit Date

- Old Grade Exit Code
- Old Grade Register ID

## Element Optionality

*This table defines whether each element is required or optional.*

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

- R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

**Table 40: Student Grade Transfer Transaction Element Optionality**

1. At least one of the changeable elements must be different from SAIS for this to be a valid "change".
2. These elements are only to be used for retroactive "add" operations. Otherwise, to exit a student from a grade with no intention of putting him in another, the Student Withdrawal transaction should be used.

## 010 Student Payer Factors

This transaction is designed to capture the elements that are directly related to tuition payment: the tuition payer and the special enrollment code. These elements are unique to one single membership for a student. In other words, these elements will apply only to the student's membership (already on SAIS) in the school specified, during the membership period encompassing the dates specified. Furthermore, there may be more than one of either or both of these elements during a single membership.

When to use this transaction:

- when a student's special enrollment situation or tuition payer changes during the course of the school year
- when a student's special enrollment situation or tuition payer was submitted incorrectly on the *001 Student Enrollment* (page 34) or *002 Student Readmission* (page 43) transaction

### How to enter a Special Enrollment Code for the first time

School started 9/5/1999. On 10/1/1999, a student receives a special enrollment of CEC-B. No end date is known for this CEC-B at this time. (The original Tuition Payer Code has not changed, so its values stay null.) Advise ADE of this by submitting a *010 Student Payer Factors* (page 77) transaction with the following elements.

- transaction ID = 010; operation code = add
- identifying elements for school & student, student names
- all "old" elements remain nulls, as non previously existed on SAIS
- New Special Enrollment Code = {the value representing "CEC-B" }
- New Special Enrollment Start Date = 10/01/1999
- New Special Enrollment End Date = nulls
- all "Tuition Payer" elements remain nulls, because that is not being changed

### How to exit an existing Special Enrollment Code and enter a new one

On 02/16/2000 the above student is awarded Open Enrollment status. The previous special enrollment code expires when this new one starts. The tuition payer has not changed. This will be accomplished using one of the following methods, depending upon the situation.

The previous special enrollment remained in effect until superseded by this open enrollment status. Submit a single *010 Student Payer Factors* (page 77) transaction with the following elements.

- transaction ID = 010; operation code = add
- identifying elements for school & student, student names
- Old Special Enrollment Code = {the value representing "CEC-B" }
- Old Special Enrollment Start Date = 10/01/1999
- Old Special Enrollment End Date = 02/15/2000
- New Special Enrollment Code = {the value representing "open enrollment" }
- New Special Enrollment Start Date = 02/16/2000
- New Special Enrollment End Date = nulls
- all "Tuition Payer" elements remain nulls, because that is not being changed

### How to exit an existing Special Enrollment Code and not enter a new one

- transaction ID = 010; operation code = change
- identifying elements for school & student, student names
- Old Special Enrollment Code = {the value representing "CEC-B" }
- Old Special Enrollment Start Date = 10/01/1999
- Old Special Enrollment End Date = 01/07/2000

- all "new" elements remain nulls, as no special enrollment is in effect
- all "Tuition Payer" elements remain nulls, because that is not being changed

## Transaction Elements

The following structure describes the elements in this transaction.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation. The following elements will be changed if supplied with an "add" operation and a "delete" operation.

- Old Special Enrollment Code
- Old Special Enrollment End Date
- Old Tuition Payer Code
- Old Tuition Payer End Date

## Element Optionality

*This table defines whether each element is required or optional.*

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

1. If any "start date" is provided, then a value for its corresponding "Special Enrollment" or "Tuition Payer" value must also be provided.
2. If provided, at least one of the changeable elements from these sets of fields must be different from SAIS for this to be a valid change.
3. At least one of these sets of elements is required for this to be a valid add or delete operation.

## 016 Student Year End Status

The *016 Student Year End Status* (page 81) transaction relates only to students who are in membership through the scheduled last day of school. This transaction captures one piece of information.

- Year End Status Code: the student's state on the last day of school. Every student who is in membership at the end of the school year must be assigned a Year End Status Code.

The *016 Student Year End Status* (page 81) transaction requires school and student identifying information and a year-end status code. The date on the transaction identifies the membership for which this code applies.

The Year End Status Codes can be found in **Transaction Code Values - Activity**.

**Note:** Summer Activity Code has a codependent relationship with Year End Status Code. These two elements and Withdrawal Code have a mutually exclusive relationship. SAIS will not validate these relationships during the transaction processing sequence. The relationship among these elements will not be validated in the first implementation of SAIS, but will be included in Integrity Checking processing in a future fiscal year.

Year End Status may be submitted before or after the school year end date. Some districts prefer to submit expected values beforehand and then correct those year end statuses which do not match expected student results.

### Transaction Elements

The following structure describes the elements in this transaction.

1. This element must be different from SAIS for a valid change operation.

## 017 Student Attendance

SAIS calculates each student's Average Daily Attendance (ADA) for funding and reporting purposes. SAIS provides two transactions for submitting the elements necessary to this calculation: [017 Student Attendance](#) (page 83) and [004 Student Absence](#) (page 52).

 **Note:** All absences for all students must be reported to ADE with the [004 Student Absence](#) (page 52) transaction. However, calculating ADA is another matter. For most students, calculating ADA may be accomplished using the information provided in the [004 Student Absence](#) (page 52) transaction; for other students, however the only way this can be accomplished is via the [017 Student Attendance](#) (page 83) transaction.

The formulae for calculating ADA depend upon the characteristics of the student; these formulae and the groups' characteristics are set forth in A.R.S. § 15-901. Currently there are three groups defined in A.R.S. § 15-901.

- Preschool children with disabilities: full-time instruction is based on a certain number of minutes of instruction time per week.

 **Note:** For preschoolers, only those who are currently receiving services for a SPED Group B disability are eligible to generate funding. Since SAIS might not know the student's current Needs at this point, the Preschool handicapped validation is performed in Integrity, after districts begin submitting the Needs data to SAIS and before ADM is calculated.

- Homebound students (students receiving home instruction) or hospitalized students: as above, full-time instruction is based on a certain number of minutes of instruction time per week.
- All other students: full-time instruction is based on a number of minutes or hours of instruction time per school year.

The first two groups require the same elements to calculate ADA and will use the [017 Student Attendance](#) (page 83) transaction to report the elements; the third requires a different set of elements and will use the [004 Student Absence](#) (page 52) transaction to report the elements. These transaction methodologies are described below.

- The [017 Student Attendance](#) (page 83) transaction, which is described in this chapter, captures school attendance information for use in calculating Average Daily Attendance for funding students whose ADA metric is amount of time attended per week. Absences and potential membership are irrelevant for calculating ADA here. Attendance is calculated by adding up all the attendance records for the student. The groups fitting this

criterion are preschool students with disabilities and homebound students, but this *017 Student Attendance* (page 83) transaction may be used for any high school, preschool with disability, or homebound student.

- The *004 Student Absence* (page 52) transaction, which is described in an earlier chapter, captures absence information for use in calculating Average Daily Attendance by subtracting absences from the student's potential membership (calculated from the membership start and withdrawal dates, combined with the school calendar). All student absences should be reported to ADE using the *004 Student Absence* (page 52) transaction, but not all will be used for calculating ADA.

While all students' ADA could be determined with data submitted using the *017 Student Attendance* (page 83) transaction, using only the *004 Student Absence* (page 52) transaction for the vast majority of students not only provides more accurate student-level reporting, but also significantly reduces the number of transactions that must be reported to ADE. It also simplifies Student Detail reporting from the districts to ADE.

### AOI Students

AOI schools are required to report attendance. The SAIS system shall accept AOI minutes of instruction reported for any day of the school year, including days which statute requires schools to be closed, provided teacher-pupil interaction is not required on these days. All validation rules that are now in affect regarding the acceptance of non-AOI transaction records shall be maintained and applied to AOI transaction records, unless otherwise stated. Although AOI absence records shall be accepted by the SAIS system, they will not be considered during the integrity or aggregation processes.

## Attendance Time Periods

Schools must report their attendance periods to coincide with the way they are stated in statute, which is in one-week increments. **ADE will reject any attendance transaction exceeding a one-week increment.** (One-day periods will also satisfy the statutory attendance period.) Attendance periods may have a maximum of 1-week in length, and only within the ADE-recognized boundaries for a week, which runs Sunday through Saturday.

 **Note:** This rule has been stated since the inception of SAIS, but is only being enforced beginning with Fiscal Year 2003-2004.

SAIS shall reject a transaction that reports more than 1440 minutes (24 hours) per reported days of instruction. SAIS shall submit a warning if the minutes submitted in the transaction equals or exceeds 480 minutes (8 hours) per reported days of instruction.

Schools must report attendance to coincide with periods set in statute for calculating ADM and ADA, because ADE still will calculate ADM by the timeframes defined in statute for ADM: the first 40 school days, the next 60 school days and the remaining school days. Therefore, then three of those periods must end on the 40<sup>th</sup> day, the 100<sup>th</sup> day, and the last day of school.

## Submitting both absence and attendance

A school may submit both attendance and absence for a membership. Sometimes it is a necessary result of the status of the pupil. At other times it could happen through an error in the transaction creation program at the school or district site. Note that given certain conditions, if SAIS finds both absence and attendance information for given point in time during a membership, then only the attendance transactions will be used when calculating ADA, and any absences will be used solely for statistical purposes. The funding source hierarchy follows:

**Table 45: Both absence and attendance data found on SAIS**

Grade and homebound setting	ADA basis
preschool student with disabilities	attendance*
elementary student, homebound	attendance*
elementary student, not homebound	not possible; attendance would be rejected; ADA uses absence
homebound student, any grade	attendance*

Grade and homebound setting	ADA basis
high school student, homebound	attendance*
high school student, not homebound	attendance*

\* When attendance is the basis for ADA, any submitted absences will be used for statistical purposes only

**Note:** If ADE receives neither absence nor attendance for a student, SAIS will assume that instructional time is being reported with absences; in other words, the student will be assessed as having perfect attendance. Exception: If instructional time is required by statute to be reported to ADE using attendance, such as for a homebound.

**Note:** If absences are irrelevant for attendance reporting students, any invalid absences will fail. This rule will be enforced in Integrity.

The following excerpt from the 6/16/2003 **Inside SAIS** newsletter explains this another way:

In certain circumstances, attendance (versus absence) CAN or MUST be submitted to SAIS for funding students. These circumstances are:

1. Homebound Students MUST report attendance to receive funding (requirement of 240 minutes a week per statute).
2. PS Students MUST report attendance to receive funding (requirement of 360 minutes a week per statute).
3. High School Students CAN report using attendance rather than by reporting absences to receive funding (requirement is 1200 minutes a week per statute).

## Examples

For all conditions in which attendance is a valid method of submitting school participation, if attendance is ever submitted for a period of time during that membership, attendance must continue to be submitted for the entire that condition exists, or SAIS will calculate it to be zero for all unreported days.

The following examples illustrate the impact of this rule.

**Example 1.** An elementary school student attends school for one month, then becomes homebound for the remainder of the school year. ADA for the first part of the year (until the date the Student Need of Homebound takes effect) is based on absence. ADA for the second part of the year, beginning the date the Student Need of Homebound started, is based on attendance, even if absences are submitted as well.

**Example 2.** A high school student attends regular school for the entire year, missing about ten days due to various reasons. The school submitted his first week (no days absent) using the *017 Student Attendance* (page 83) transaction. The school changes their mind, deciding to submit absences instead, and over the ensuing year they submit the ten days of absence. ADA for this student will be calculated solely using attendance. *This means that for an entire year, this student will look as though he was absent for 165 of the 175 days.*

**Note:** For all conditions in which attendance is a valid method of submitting school participation, if attendance is ever submitted for a period of time during that membership, attendance must continue to be submitted for the entire period that condition exists, or SAIS will calculate it to be zero for all unreported days.

## Transaction Elements

The following structure describes the elements in the Student Attendance transaction.

**Table 46: 017 Student Attendance Transaction Elements**

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements will be changed if supplied with an "add", a "change", and a "delete" operation.

- Attendance End Date
- Attendance Minutes

## Element Optionality

This table defines whether each element is required or optional depending on Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored

1. At least one of these elements must be different from SAIS for this to be a valid "change".

**Note:** \* Attendance Minutes does not have predefined code values (by contrast, Absence Amount may only be stated in quarters, with a maximum of one whole day). 0 (zero) is a valid Attendance Minutes value.

## 018 Student Summer Withdrawal

**Note:** The first year that districts are required to begin submitting **Student Summer Withdrawal** transactions will be for those students who summer withdraw in summer 2002. SAIS will show these summer withdrawals on the Year End Enrollment report for Fiscal Year 2002-2003.

For Year End Enrollment reports in Fiscal Year 2001-2002 and earlier, SAIS will continue to accept manual summer withdrawal counts from the districts via DelRep.

The *018 Student Summer Withdrawal* (page 87) transaction relates only to the student who is in membership through the scheduled last day of school but does not return to school, at least not where and when expected. The following students are expected to start membership in a new school year:

- **Group 1: Returning students.** Each student who is still in membership at the end of the school year in any grade other than the highest grade offered by that school, is expected to continue membership in the same school the next school year.

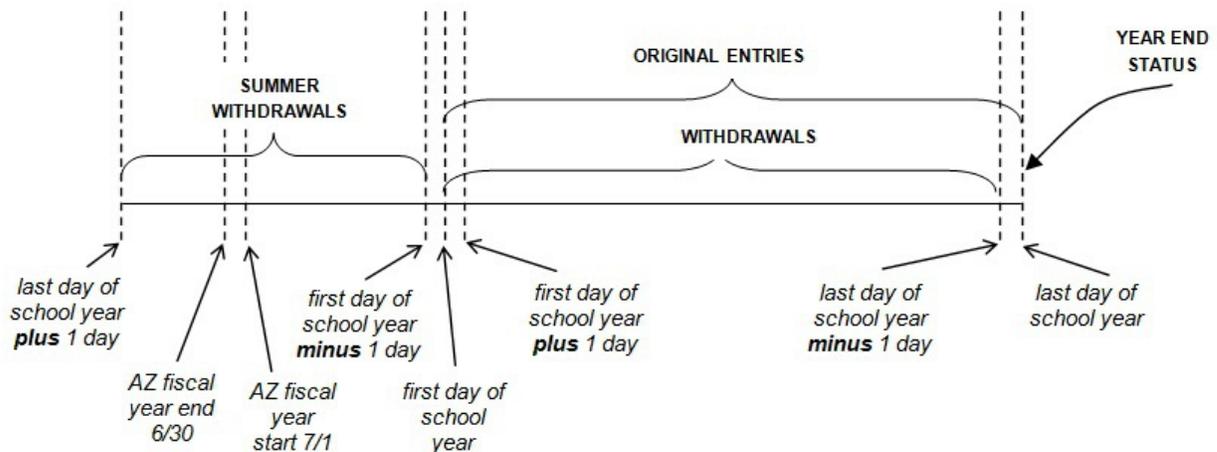

**Note:** The student's academic status at the end of the previous year – promoted, retained, etc. – is irrelevant to determining if a student is a "returning student."

- **Group 2: New students from feeder schools.** Each student who is still in membership at the end of the school year in the highest grade offered by that school, is expected to begin membership for the next school year at the LEA for which that school is a feeder. For example, a child attending an elementary school that serves kindergarten through eighth grade and who is promoted at the end of the year, is expected to begin the next year at the high school that has agreed to accept this school's graduates.

If one of these children fails to start membership in school in the new school year as expected, this is reported to SAIS with the [018 Student Summer Withdrawal](#) (page 87) transaction. The Summer Withdrawal Activity Code classifies activity (1) that affects membership, and (2) that took place after the scheduled last day of school but before the beginning of the next school year. The valid Summer Withdrawal Activity Codes can be found in **Transaction Code Values** document.

## Timeline of Summer Withdrawals

The following timeline depicts summer withdrawals in relation to the fiscal year, to the school year, and to other entry and withdrawal activities.

**Figure 5: Timeline of Summer Withdrawal**

## Relationship of Summer Withdrawal to Year End Status

Logically, since a student may only have a summer withdrawal if he finished the prior school year at the scheduled year-end, the existence of a Summer Withdrawal Activity Code implies existence of a Year End Status Code for the prior year.

By the same reasoning, a student having a summer withdrawal should not have a regular Withdrawal Code, because that means the student did NOT finish the prior school year at the scheduled year end.

SAIS will not enforce these rules at this time. Districts and vendors will be notified when this validation is planned to be added to the Integrity Checking Process for a future release of SAIS.

## Summer Withdrawal vs. Summer School

Summer withdrawal has nothing to do with summer school. It relates to activities that occur during the summer break, and that result in the student's not starting membership as expected in school at the beginning of the next school year.

## Frequently Asked Questions Regarding Summer Withdrawal

Following are frequently asked questions regarding how summer withdrawals are assigned to a student.

- Q1 **Reporting School.** To which school is the summer withdrawal attributed?

A The school that should have received the student in the new school year reports the summer withdrawal.

Q2 **Date:** What date should be used on the transaction?

A The summer withdrawal date is the date on which the withdrawal activity occurred. For those dates that are uncertain, e.g., no-shows, the school should identify the activity date as near as possible. The summer withdrawal date must be at least one day before the first day of the new school year. It should also be at least one day after the last day of the previous school year at the "sending" school, but this validation will not be done: in cases where two schools are involved, the receiving school might not have the same calendar as the sending school.

 **Note:** *018 Student Summer Withdrawal* (page 87), as is the case with language assessment student assessments, is one of only two transaction types that will allow activities that occur in one fiscal year to be counted in another fiscal year. For example, summer withdrawals that occur after the end of school for FY2001-2002, but before July 1<sup>st</sup> of 2002, will be reported with the data for FY2002-2003, as illustrated in the diagram in section *Timeline of Summer Withdrawals* (page 88) earlier in this chapter.

Q3 **Grade:** To what grade should the summer withdrawal be attributed?

A The grade this summer withdrawal should be attributed to is the student's intended grade for the new school year at this school. "Intended grade" is the grade that the school would have placed the student in had he begun membership in the new year.

Q4 **School Year:** To which school year will ADE attribute the summer withdrawal for the Year End Enrollment report?

A The summer withdrawal will be attributed to the school year immediately following the summer break containing the reported Summer Withdrawal Date.

Q5 **Due Date:** What is the due date for this information to ADE?

A No later than May 31<sup>st</sup>, to allow for enough time for submitters to correct errors.

## Withdrawal Reason Codes

Beginning with the 2004-05 school year, SAIS users are required by legislation to capture and report the new student level element Withdrawal Reason Code. Withdrawal Reasons are a secondary reason for the withdrawal (the primary reason being the Withdrawal Activity Code). Withdrawal Reasons are optional, and will not apply to the great majority of students who withdraw from school prior to the last scheduled day of session.

There will be no ADM funding impact related to the Withdrawal Reason Codes.

Since the validity of Withdrawal Reason Code depends on elements that can be changed in other transactions, the validation is not done here in Transaction Processing, but later in Integrity Checking Processing.

## Transaction Elements

The following structure describes the elements in this transaction.

**Table 48: 018 Student Summer Withdrawal Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks

School Attended End of Previous Year	PREVENTITYID	9	S	School identifier of the school where this student attended at the end of the previous school year; CTDS code <i>This element is especially relevant for summer withdrawal students who attended a feeder school or any school that is not the school reporting the summer withdrawal (e.g., for a promoted 8<sup>th</sup> grader who is summer withdrawing from high school, this element would have reflect the ENTITYID of the school where he attended 8<sup>th</sup> grade).</i>	
Withdrawal Reason Code	WDREASONCD	3	C	The supplemental reason for the withdrawal activity that occurred.  <i>See Code Values – Withdrawal Reason</i>	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Summer Withdrawal Activity Code
- Grade Level Code
- School Attended End of Previous Year
- Withdrawal Reason Code

## Element Optionality

This table defines whether each element is required or optional depending on [Operation Code](#).

## 020 Community College Classes

This transaction applies only to students attending a community college for classes that count toward the student's high school graduation requirements. A.R.S. § 15-1042.A.2 requires ADE to collect this information from LEA's/schools.

While not every student will be in membership at a high school concurrent while receiving instruction at a community college, every student in this situation should already be on SAIS. The LEA who must submit this information to SAIS is the LEA that permitted the student to attend the community college and that agreed to allow the credits to count toward the student's high school graduation requirements.

### Transaction Elements

The following structure describes the elements in this transaction.

## 022 Student Test Label

**Note:** This transaction is only required if the entity wants to receive student pre-id test labels sorted by group, rather than grade.

Data elements required for printing **test labels** and not already available in SAIS will be collected for each student at an LEA, via a new SAIS transaction.

### Transaction Elements

# Overview of Student Needs and Participation in Programs / Services

## Introduction to Needs

A student may require special support to enhance his/her innate capabilities, which may be within or beyond regular norms. Such required support is termed a need. Needs of interest to the ADE student system are those that are defined and funded by federal titles, State Aid and state block grants.

Programs/services address these Needs. Several manners of programs/services exist. The relationship of Need Groups, Needs, and Program/Services is illustrated in the table below.

**Table 54: Need groups, Needs, and Programs/Services**

Need group	Need (used to be called need category or need type)	Programs/ services	Funded by
language	English Language Learner – ELL (changed in legislation in 2002 from Limited English Proficiency – LEP)	language programs	federal titles state aid
special education (SPED)	the 18 disability categories (as of 7/1/1999: Autism, Emotional Disability, Emotional Disability Separate Facility/Private, Hearing Impairment, Multiple Disabilities, MD Severe Sensory Impairment, Mild Mental Retardation, Moderate Mental Retardation, Other Health Impairments, Orthopedic Impairment, Preschool-Moderate Delay, Preschool-Severe Delay, Preschool-Speech/Language Delay, Specific Learning Disability, Speech/Language Impairment, Severe Mental Retardation, Traumatic Brain Injury, Visual Impairment)	SPED services (used to be called "service types")	federal titles state aid
giftedness	quantitative (math), verbal (language) , non-verbal reasoning	support programs	federal titles state block grants
economic	free lunch, reduced lunch; homeless, migrant agriculture employment, immigrant, neglected, refugee, evacuee		
behavioral	delinquent		
health	homebound	support programs	state aid
academic	math, language arts (reading and/or writing), science, school improvement, social studies, other academic services	support programs	federal titles

A presumed student need is confirmed or refuted by an assessment event. In case a student need is confirmed the student is viewed to be in a state of a particular need; the student no longer has this need when a subsequent assessment event indicates so.

## Fiscal Year-Based Need Information

Student need information submitted to SAIS is valid for one fiscal year. With the exception of Assessment data, which is submitted in the fiscal year during which the assessment is performed, or the following year, all needs-related data must be resubmitted to SAIS every fiscal year.

## Changes to Prior Years' Data

---

Changes to SAIS data for prior years will only be allowed, subject to approval by ADE's School Finance Department, for elements effecting funding for three years back (on the Membership side, those elements on the [006 Student Membership Change](#) (page 60) transaction; on the Needs side, those elements related to participation in programs and services). Changes to prior years' non-financial elements (those found on the [005 Student Personal Information](#) (page 54) transaction) are also accepted.

## Elements Named "... on Legal Document"

---

Several data elements refer to a legal document. Arizona law (A.R.S. § 15-828) requires that documentation be presented to the school district when a child enrolls for private or public education in the state of Arizona. These documents can be: a certified copy of the pupil's birth certificate, other reliable proof of the pupil's identity and age (such as baptismal certificate, application for social security number, or original school registration records along with an affidavit explaining the inability to provide a copy of the birth certificate); or a letter from the authorized representative of an agency having custody of the pupil, certifying that the pupil has been placed in the custody of the agency as prescribed by law.

Each district determines the document it will accept as a legal document.

## Summary of the Student Needs-Related Transactions

---

### Phase I

This document defines the following transactions for the Need – Program/Service Participation relationships.

- All Needs
  - [011 Student Needs](#) (page 100)
- Language Needs
  - [012 Student Assessment](#) (page 105)
  - [013 Language Program Participation](#) (page 108)
- Special Education Needs
  - [014 SPED Service Participation](#) (page 112)
  - [021 Initial IEP](#) (page 123)
- Support Program Needs
  - [015 Support Program Participation](#) (page 119)
- Early Childhood Program Needs
  - [023 Early Childhood Program Participation](#) (page 126)
  - [024 Early Childhood Preschool Assessment](#) (page 129)

### All Needs

#### Student Need Transaction

While this transaction may be used to report a need from any need group, it's only necessary for reporting a Need for a student who is not also receiving a Program or Service for that Need. For the needs associated with a program or service the student is receiving, it's far more efficient to simply use the **SPED Service Participation**, the **Language Program Participation**, or the **Support Program Participation** transactions to add the need to SAIS.

- to submit student entry to a need in any need group

- to submit student exit from a need in any need group (this is currently only applicable to homebound needs)
- to submit a change to need exit information for any need group (this is currently only applicable to homebound needs)
- to submit a deletion of an incorrectly submitted need for any need group

### Language Needs

#### Student Assessment Transaction

- to submit an assessment
- to submit a change to assessment information
- to submit a deletion of an incorrectly submitted assessment
- to submit an assessment for purposes of monitoring progress of a language student in “Continuing FEP” status (FEP = Fluent English Proficient)

#### Language Program Participation Transaction

This transaction applies to the language need group only.

- to submit student entry to a language program (if the need was not previously added for this student for the school year, the need will be added automatically)
- to submit student exit from a language program
- to submit a change to language program participation information
- to submit a deletion of an incorrectly submitted language program participation (if there are no other programs attached to this need for this student for the school year, SAIS will automatically remove the need for this student)

### Special Education Needs

#### SPED Service Participation Transaction

This transaction applies to the SPED need group only.

- to submit student entry to a SPED service (if the need was not previously added for this student for the school year, the need will be added automatically)
- to submit student exit from a SPED service
- to submit a change to SPED service information, including SPED Service DOR
- to submit a deletion of an incorrectly submitted SPED service participation (if there are no other services attached to this need for this student for the school year, SAIS will automatically remove the need for this student)

#### SPED Service DOR Transfer Transaction

 **Note:** This transaction has been removed in FY2006. The ability to change a SPED Service DOR will be incorporated into the SPED Service Participation Transaction.

## Phase II

As defined earlier in the chapter *SAIS in Brief* (page 24). The following transactions were not included in the initial implementation of SAIS. They are being incorporated into the SAIS requirements specification for use beginning with FY2003-2004 and beyond.

### Needs other than Language and Special Education

This applies to participation in programs for needs in need groups other than Language and SPED.

- *015 Support Program Participation* (page 119)

#### Support Program Participation Transaction

This transaction applies to all need groups other than SPED and language and is used as follows:

- to submit student entry to a need associated with a recognized need group and entry to a support program
- to submit entry to a support program

- to submit a deletion of an incorrectly submitted support program
- to submit an exit from a support program.

**Additional SPED Requirement**

This applies to those 3 years old and under who do not yet receive SPED Services. This is required for FAPE.

- [021 Initial IEP](#) (page 123)

**Initial IEP Transaction**

This transaction does not tie to any Needs, Assessments, Programs, or Services.

- to submit the date a student was given an initial IEP and to indicate if the student participates in the AzEIP program
- to submit a change to the initial IEP date or to the proposed date of initiation of services
- to delete an incorrectly submitted initial IEP

# All Needs

---

## 011 Student Needs

---

**Note:** While this transaction may be used to report a need from any need group, it's only necessary for reporting a Need for a student who is not also receiving a Program or Service for that Need. For the needs associated with a program or service the student is receiving, it's far more efficient to simply use the [014 SPED Service Participation](#) (page 112), the [013 Language Program Participation](#) (page 108), or the [015 Support Program Participation](#) (page 119) transactions to add the need to SAIS.

**Note:** For all programs/services **except for Support Programs**, when the last Program or Service Participation item has been deleted for a given Need, SAIS will automatically delete that Need. There is no necessity to submit an [011 Student Needs](#) (page 100) transaction. Since funding is sometimes generated based on select Needs associated with some Support Programs, SAIS will not automatically delete any Needs associated with Support Programs. If a Need associated with a Support Program is submitted to SAIS in error, both the Support Program and the Need must be deleted separately.

If a student has been identified as having a particular *Need*, the district or school submits the [011 Student Needs](#) (page 100) transaction to record in SAIS the student's entry into that state of need. The transaction requires student identification, the need code and the need entry date. See the section below on [Need Entry and Exit Dates](#) (page 100) to determine if a need exit date is required for the specific need being reported. Beginning in FY2006, SAIS will validate that the student Need is supported by a membership at any school within the fiscal year as designated by the "Need Entry Date". This validation will be performed at the Integrity Checking step rather than against the transaction submitted to SAIS.

Only one *Need* can be specified in one transaction. For a student that has been determined to have multiple *Needs*, the school will create one transaction for each *Need*.

### Need Entry and Exit Dates

While the state of need has a logical start and sometimes an end, SAIS will only require the exact entry and exit dates when they directly affect funding. For non-Support Program needs, funding is generated for services rendered, not simply for the existence of a need.

#### Homebound Need

Children with a homebound need are funded through the ADM process (Membership). The services a homebound student receives are simply hours of regular instruction, but legislation has set the minimum required hours per week of instruction for full-time equivalence to be far lower than that for other students.

Since Arizona statute has set different required instructional time for homebound students than for all other students, ADE must know exactly when the homebound need began and ended. Districts report the homebound need to ADE using the [011 Student Needs](#) (page 100) transaction described in this document.

- When a student is determined to have the need of homebound, submit a [011 Student Needs](#) (page 100) transaction "add" operation. The Need Entry Date will be the day the student begins receiving home instruction.
- When the student stops receiving home instruction, submit a [011 Student Needs](#) (page 100) transaction "change" operation with the Need Exit Date being the day the student last received home instruction.
- If the student has more than one non-contiguous periods of home instruction throughout the school year, each of those periods must be submitted separately.

In order to calculate the homebound student's ADM properly, **SAIS requires a need entry date for the homebound need.** If the homebound need ends before the student withdraws from school or completes the new school year, a **need exit date** is also required.

## Free Lunch Eligibility, and Reduced Price Lunch Eligibility Needs

Beginning in FY2006, Free Lunch and Reduced Price Lunch needs will be replaced in SAIS with the NCLB1 Indicator and NCLB2 Indicator, respectively. This section will be removed in a future publication date.

## All needs other than Homebound

For all needs other than Homebound, funding is generated for services rendered as reported in the various "Program Participation" transactions, which show service start and service end. ADE does not need to know when the student's need itself began or ended, just the service or program participation for that need. **For this reason, for all needs other than Homebound, SAIS will use the start (entry date) only to determine fiscal year, and if a need exit date is submitted, it will be ignored.**

## Migrant Needs

Beginning in Fiscal Year 2005, Migrant Needs and Migrant Program Participation will be captured in SAIS using an interface process from the Migrant COEStar database. Migrant Needs and Migrant Program Participation transactions submitted to SAIS from LEAs will be disallowed.

## Needs-only students

Occasionally a district might report a student to SAIS for special needs only, meaning that the student does not generate funding from a membership (ADM). In the vast majority of cases where special needs are concerned, a student will attend a state-funded school for regular instruction and a state-funded school for programs or services for their special needs.

For a needs-only student, if the child has not already been assigned a SAIS student identifier, before the need or the program/service participation may be submitted to ADE, the district must submit a *005 Student Personal Information* (page 54) transaction with an "add" operation. The PI "add" transaction will establish the student on the SAIS database and assign a unique SAIS student identifier for that child.

## NCLB Indicators

Beginning in FY2006, NCLB1 and NCLB2 indicators are included as valid needs in SAIS.

## Homeless (Unaccompanied Youth) Needs

The capturing of Primary Nighttime Residence for students identified as Homeless is a Federal requirement as mandated by the US Education Department. The relevant legislative imperative is: TITLE VII-B OF THE MCKINNEY-VENTO HOMELESS ASSISTANCE ACT, AS AMENDED BY THE NCLB ACT OF 2001; CDFA Number 84.196; FORM APPROVED; OMB NO.: 1810-0650.

**Note:** The Primary Nighttime residence is associated with students who have been designated as Homeless.

From FY2009 forward, ADE shall collect "Homeless – Unaccompanied Youth" to be added to the *011 Student Needs* (page 100). This is being added to comply with Federal Reporting Requirements.

## Immigrant Needs

Beginning in FY2007, SAIS will validate that a student may only be designated with an Immigrant need code for three prior fiscal years. This rule will be validated during the Integrity Checking process.

The basis of the request is the NCLB Act of 2001, Title III: Language Instruction for Limited English Proficient and Immigrant Students, Part C-General Provisions, Section 3301.Definitions.(6)

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Need Exit Date (for homebound, and Homeless needs only)
- Primary Nighttime Residence

## Element Optionality

This table defines whether each element is optional or required depending upon *Operation Code*.

1. Although this is the only changeable field on this transaction, it is not required for a valid "change" operation because the "change" might be intended to remove an existing Need Exit Date from the SAIS database
2. Required only if Homeless need submitted for student in the transaction. Otherwise, properly formatted values (length and data type) will be ignored.

## Language Needs

---

**Note:** The terminology used in the language area periodically change in response to current trends. The language area has included the terms "Bilingual," "Limited English Proficiency," "English Acquisition," and "English Learner." No matter what the current accepted terminology may be, these terms all refer to the language needs area.

Having a low level of skill in comprehending, speaking, reading, or writing the English language due to upbringing in another language entitles a student to participate in a suitable language program (A.R.S. § 15-751.1). The LEA shall determine what language program is suitable by using an approved assessment method.

Two transactions were designed for the language subject area:

- The *012 Student Assessment* (page 105) transaction is designed to capture data concerning assessments administered to a student in order to identify a language need, and is also used to identify a student whose language progress is being monitored after achieving FEP status.
- The *013 Language Program Participation* (page 108) transaction is designed to capture data concerning entry to/exit from a language program in which the student participates.

## How to use the Language-related transactions

---

- When the student has a language-related assessment, submit the *012 Student Assessment* (page 105) "add" operation to record that assessment in SAIS. The assessment "add" operation will also be used when a student is classified as "Continuing FEP".
- When the student begins participation in a language program, submit the *013 Language Program Participation* (page 108) "add" operation to establish the student's program entry date. (This transaction will automatically register the language need – if it doesn't already exist -- in SAIS for this student for the entire fiscal year.)
- When the student ends participation in that language program, submit the *013 Language Program Participation* (page 108) "change" operation to exit the student from that program. (The Need information will not change on SAIS.)
- If a student's participation was reported in error, submit the *013 Language Program Participation* (page 108) "delete" operation to exit the student from that program. (If there are no other language programs for the student this school year, this will automatically delete the language need for this student.) The delete operation removes the student from the program altogether.

## 012 Student Assessment

---

As stated earlier in the introduction to this *Language Needs* (page 105) chapter, assessment events confirm or refute a student's presumed need. This transaction is independent of need. At this time, only assessment events related to the language need must be submitted to SAIS, although in the future this transaction could be used to submit assessment information pertaining to any need in any need group.

### Transaction Elements

From FY2009 forward, transaction *012 Student Assessment* (page 105) will no longer be submitted by LEAs to ADE, the AZELLA vendor will submit Student Assessment results directly to ADE. Please see "ELL Assessment Integration" supporting document that describe the new process.

The following structure describes the elements in this transaction.

**Table 57: 012 Student Assessment Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks

#### Information Notes:

1. A score of 999 indicates a student in Continuing FEP status. Submitting this information to SAIS is optional. SAIS will track Continuing FEP students internally.
2. A score of 998 indicates the student did not attempt to complete assessment sub-test.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Oral - Assessment Score
- Reading – Assessment Score
- Writing – Assessment Score
- Oral – Proficiency Level
- Reading – Proficiency Level
- Writing – Proficiency Level
- Overall Assessment Result
- Overall Total Composite Scaled Score
- Overall Proficiency Level

## Element Optionality

This table defines whether each element is optional or required depending upon *Operation Code*.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

Overall Total Composite Scaled Score	R	2	R
Overall Proficiency Level	R	2	R

1. At least one sub-test's (Oral, Reading, or Writing) current Assessment Date, Assessment Score, and Proficiency Level must be submitted for a valid "change" operation.
2. At least one of these elements must be different from SAIS for a valid "change" operation.
3. To change an assessment date, you must submit a "delete" transaction with the incorrect/current assessment date and subsequently submit an "add" transaction with the correct/new assessment date.

## 013 Language Program Participation

This transaction applies to participation in programs associated with the language need group only. (See [Table 54: Need groups, Needs, and Programs/Services](#) (page 96) for relevant needs.)

See the section [How to use the Language-related transactions](#) (page 105) for instructions on how this transaction is to be used.

## Language Rules

1. At any given time a student may participate only in one language program.
2. ELL should always tie up to a membership at the school, so that when a membership ends the ELL program participation should end as well.
3. When the last *013 Language Program Participation* (page 108) item has been deleted for a given Need, SAIS will automatically delete that Need. There is no necessity to submit a *011 Student Needs* (page 100) transaction.

## Transaction Elements

The following structure describes the elements in this transaction.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Program Exit Date
- Program Exit Reason Code

## Element Optionality

This table defines whether each element is optional or required depending upon *Operation Code*.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

1. If either of these fields is submitted, then both must be included for a valid "add" or "change" operation.
2. Note that although these are changeable fields, values are not required, because the "change" might be intended to remove an existing Program Exit Date and Program Exit Reason Code from the SAIS database.

# Special Education Needs

## 014 SPED Service Participation

This transaction applies to needs associated with the SPED need group only. (See [Table 54: Need groups, Needs, and Programs/Services](#) (page 96) for relevant needs.)

SPED provisions are anchored in A.R.S. § 15-761.30. The SPED categories (e.g., Autism, Emotional Disability, Developmental Delay, Preschool Moderate Delay, etc.) are defined as **Needs**. The service (e.g., outside regular class at least 21% but no more than 60% of the day, etc.) provided to a student with a diagnosed SPED-related **Need** is considered to be participation in a **Service** (akin to Program for all other Need Groups). Funding for services is based on when the student received – or participated in – those services. Hence, this SPED need groups services are associated with an entry and an exit.

The transaction allows only one combination of Need & Service to be submitted at a time. If the need is not already on SAIS for the fiscal year, SAIS will automatically add it based on this transaction. The Need is recorded in SAIS only once for the entire fiscal year. If over time the student receives multiple Services for a single Need, the entry and exit to each of those Services must be reported to SAIS on a separate transaction.

 **Note:** When the last SPED Service Participation item has been deleted for a given Need, SAIS will automatically delete that Need. There is no necessity to submit an [011 Student Needs](#) (page 100).

## Funded SPED District of Residence (DOR)

 **Note:** As described in [Membership](#) (page 34), district of residence is a logical construct as defined in Arizona statute. It specifically refers to funding. Therefore, to make the distinction between where a student lives (physical) and what considerations have been made for funding (logical) the name of this element is the Funded SPED Service DOR.

The Funded SPED Service DOR will be set with an "add" operation. The SPED Service DOR Entry Date and SPED Service DOR Exit Date will default to the SPED Service Entry Date and SPED Service Exit Date respectively. To change a Funded SPED Service DOR, or modify the SPED Service DOR Entry Date or SPED Service DOR Exit Date, please use the [014 SPED Service Participation](#) (page 112) transaction.

 **Note:** The Funded SPED Service DOR may or may not be the same as the District of Residence for school membership. Adding or changing the Funded SPED Service DOR does not affect or change the District of Residence associated with the student's school membership. If the District of Residence associated with the **membership** needs to be changed, use the [007 Student DOR Transfer](#) (page 62) transaction.

## Uses of the SPED Service Participation transaction

The transaction is designed to capture the following situations. The required [014 SPED Service Participation](#) (page 112) transactions are listed with each.

A student may be diagnosed to have multiple **Needs** and may participate in multiple SPED **Services**. However, a student may participate in only one **Service** at a time for a single **Need**.

Need Entry Date only serves to tell us what fiscal year the need exists in. Logically the student must have the need at least as early as receiving a service for that need, so Need Entry Date should be the same as or earlier than SPED Service Entry Date, but this is not required from a system standpoint so this validation will not be done.

1. Initial diagnosis indicating that student has a Need and the student has been placed in a Service. If a *014 SPED Service Participation* (page 112) transaction is received with no previous Need established, SAIS will create one.
  - An "add" operation to submit Service entry. If the specified Need was not previously added for this student for the school year, the need will be added automatically.
2. Transfer to a different Service while staying in current Need.
  - A "change" operation to submit Service exit for the previously submitted Service
  - An "add" operation to submit Service entry for the new Service
3. Re-diagnosis indicating that student no longer has a previously submitted Need.
  - A "change" operation to submit the Service exit.
4. Diagnosis or re-diagnosis indicating that in addition to the previously submitted Need, the student has another Need and has been placed in a Service.
  - An "add" operation to submit the new Need entry and Service entry.
5. Re-diagnosis indicating that student Need has changed relative to the previously submitted Need: the student no longer has the previous Need but instead has a new one.
  - A "change" operation to submit exit from the previously submitted Service
  - An "add" operation to submit entry to the new Need (and Service if the student has already started receiving a Service for the new Need).
6. To delete a SPED Service Participation submitted in error to SAIS.
  - A "delete" operation to delete the Service Participation. **If there are no other services attached to this need for this student for the school year, SAIS will automatically remove the need for this student.**
7. For Needs Code DD (FY2010 forward): A student whose age is greater than 10 year minus one day will not receive funding for the DD need.
  - Upon turning 10 years of age, it is expected that the LEA/school shall initiate the exit of the student from the DD SPED service, using Exit Code 9. Immediately upon exiting the service, the LEA/school should re-assign a new need category.

## How to Change a Student's Scheduling DOR, or Grade Mid-Year

SAIS does not anticipate that SPED students will be changing DORs, or Grades mid-year very often. Therefore, there is no dedicated transaction for this. To accomplish a mid-year DOR, or Grade change, the district should take the following steps.

- Exit the student from the SPED service.
- Enter the student effective the following day, for the same SPED service but with the new values.

## SPED School Concurrency

This element identifies the school's role in providing SPED services to the student. The characteristics of this element are:

Primary:	The school is responsible for determining and case managing the student's SPED needs and curriculum.
Secondary:	The school provides some services to the student, but is not responsible for determining or case managing the student's SPED needs and curriculum.

## Transaction Elements

The following structure describes the elements in this transaction.

**Table 61: 014 SPED Service Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 014	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS

SPED Exit Reason Code	SPEEXRSNCD	2	C	Reason for exiting the SPED service <i>See Code Values – SPED Service Exit Reason</i>	
SPED Grade	SPEDGRADE	3	C	The student's grade placement. (The SPED grade should be the same as the grade for the student's <i>006 Student Membership Change</i> (page 60) transaction.) <i>See Code Values – Grade</i>	
Funded SPED Service DOR	SPEDDORID	9	S	The Funded school district in which student resides or to which student's residence is assigned for this SPED Service; CTDS code	
<i>empty field: formerly SPED Neighborhood School Indicator: element no longer collected.</i>		1	L	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	
SPED Special Enrollment Code	SPEDSPECENR	2	C	Special dispensation (e.g., CEC-B) granted for a single enrollment (or program/service) allowing the student to attend this school, which is outside his normal district of residence <i>See Code Values – Special Enrollment</i>	

Field name	Abbreviated name	Len	Data type	Description	Remarks
SPED Federal Primary Indicator	TBD	1	L	Indicates if the SPED Need being serviced is the Primary Federal Need. If the student is found eligible in one or more disability category, it means the disability category that has the greatest adverse impact on the students' ability to access and progress through the general curriculum. This information should be found in the current multidisciplinary evaluation team report.	
<i>empty field: formerly SPED Concurrency Type.</i>	TBD	1	C	<i>This element is no longer collected. Properly formatted values (length and data type) in these fields will be ignored. For SDF files, no characters in the field is preferred. For XML files, no submittal of the element is preferred.</i>	
SPED School Concurrency	TBD	1	C	FY2011: Identifies the school's role in providing SPED services to the student. The 'P' (primary) and 'S' (secondary) indicators identify the extent of the school's responsibility for determining and case managing the student's SPED needs and curriculum.	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- SPED Exit Date
- SPED Exit Reason Code
- SPED Special Enrollment Code
- SPED Grade
- Funded SPED Service DOR
- SPED Federal Primary Indicator

**Note:** The "change" operation does not work for SPED Grade changes between PS and non-PS grades. For grade changes involving PS, the SPED service for the earlier grade must actually be exited and the SPED service for the later grade added new. The reason for this is that SPED services for preschool and non-preschool, while using the same set of letter abbreviations, are actually completely separate and different sets of services, having different rules and eligibility requirements.

## Element Optionality

This table defines whether each element is optional or required depending upon Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

**Table 62: SPED Service Transaction Element Optionality**

Element	Add	Change	Delete

<i>element no longer collected: SPED Neighborhood School Indicator</i>	X	X	X
SPED Special Enrollment Code		1	
SPED Federal Primary Indicator	R	R	X
SPED School Concurrency	R	R	X

1. A valid "change" operation might contain NONE of these optional fields because the intent of the "change" could be to eliminate existing exits or to remove a Special Enrollment Code from the SAIS database.
2. On a "delete" operation, the need will ONLY be deleted if there are no other programs or services associated with it on the SAIS database.
3. SPED Exit Reason Code is required when a SPED Exit Reason Date is submitted.

## SPED Service DOR

The Funded SPED Service DOR (District of Residence) – called the SPED DOR – is the funded district of residence for the SPED service only and should not be confused with the district of residence associated with a student's school membership. The Funded SPED Service DOR is captured in the *014 SPED Service Participation* (page 112) transaction.

DOR is an essential factor in state aid. The DOR is not necessarily the district in which the student physically resides. DOR as used at ADE is defined in Arizona Statute as a logical construct that enables a district to receive state money generated by a specific student's school membership, even though sometimes that district is not the one providing the educational services. Therefore, the SAIS element name is "Funded District of Residence". Each student participating in a SPED program must have a declared DOR. (While logically the DOR declared for a student's special needs – his SPED DOR – should be the same as the DOR declared for his regular instruction, SAIS has provided for these two areas to be handled separately. Analysis of the submitted data will make it clear if this is how business is actually done.)

A student may change SPED DOR while continuing to participate in the same special education SPED service. When this happens during the school year while the student continues to attend the same school, a **SPED Service DOR change**, submitted through the *014 SPED Service Participation* (page 112) transaction, must be submitted to ADE. This transaction can also be used for changing the end date of a child's belonging to a SPED DOR.

# Support Programs

## 015 Support Program Participation

This transaction applies to needs in all need groups other than language and SPED. (See [Table 54: Need groups, Needs, and Programs/Services](#) (page 96) for relevant needs.) The [015 Support Program Participation](#) (page 119) transaction is the source of automated federal titles and state block grants reports. It is used to submit participation in only those programs listed in the Support Programs table in the **Code Values** document .

### Uses of the Support Program Participation transaction

The following rules apply to Support Program Participation as far as SAIS is concerned. .

**Note:** Support programs and related Needs are to be reported using the State fiscal year (July 1-June 30).

1. A Support Program applies to a single need, some to more than one need, and some to no need (this final case is when a program is offered as general support to students, not requiring that participating students be identified with any specific Need).
2. At any given time a student may participate in multiple different Support Programs. For example: a student A has been identified to have 2 Needs: Homeless (an economic disadvantage) and Math (an academic disadvantage). This student might participate in the following Support Programs:

**Table 63: Multiple Needs Support Programs**

Support Program	This specific occurrence of the program supports the Need of ...
21 (21 <sup>st</sup> Century program)	6 (Homeless)
21 (21 <sup>st</sup> Century program)	13 (Math)
21 (21 <sup>st</sup> Century program)	{null}
22 (Homeless)	6 (Homeless)
28 (Title I Mathematics)	13 (Math)

3. A student may participate in the same program more than once during a fiscal year, but a student may participate in a single occurrence of a specific Support Program for one Need at a time.

To illustrate this, see the last entry in the table below that lists valid combinations of programs for a single student:

**Table 64: Support Program Sequential Participation**

Support Program	... Need ...	Start Date	End Date*

22 (Homeless)	6 (Homeless)	8/18/2003	
28 (Title I Mathematics)	13 (Math)	8/18/2003	

Support Program	... Need ...	Start Date	End Date*
21 (21 <sup>st</sup> Century program)	6 (Homeless)	1/5/2004	*

\* Note that since for FY2004-05 SAIS does not capture the program's end date, for FY2004-05 SAIS will only check that a single specific support program is not submitted for a student more than once with the same start date. Beginning with FY2005-06 SAIS will capture program start and end dates. At that time, SAIS will validate that specific combinations of (Support Program + Need) don't overlap.

SAIS will handle the Need / Support Program participation relationship in the following way.

- **Initial placement in a Program.**
  - The LEA submits an "add" operation to submit Program entry to SAIS.
  - If the Need specified in the transaction has not already been established in SAIS, SAIS will create one automatically.
- **Deleting a Support Program Participation.**
  - The LEA submits a "delete" operation to remove the Program Participation submitted in error.
  - If there are no other Programs attached to this Need for this student for the school year, SAIS will automatically remove the Need for this student.

## Transaction Elements

**Note:** This transaction is a clone of the 013 Language Program Participation transaction . Several fields used in that transaction are not used here: each has been marked as an "empty field". ADE will ignore any values in fields named "empty field". Some of these fields will be added to this transaction for FY2004-05 (see the individual element descriptions below). These "empty fields" will be reused for another purpose in a future year.

The following structure describes the elements in this transaction.

**Table 65: 015 Support Program Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 015	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS	
Operation Code	OPRCD	1	S	A = Add new Support Program Participation and, possibly, Need C = Change a Support Program Participation D = Delete a Support Program Participation	
Entity ID	ENTITYID	9	S	School identifier; CTDS code	
School Student ID	SCHLSTUID	12	S	School-generated student identifier	
Student ID	STUDENTID	10	I	ADE-generated student identifier	

Field name	Abbreviated name	Len	Data type	Description	Remarks
Track Number	TRACK	4	I	For schools or districts with multiple tracks, identifies the track to which this enrollment applies. (If the school does not have its own calendar, it will use the district's calendar.)

<i>Receiving CTDS</i>	<i>TBD</i>	9	S	Receiving School CTDS. This field will be required only when reporting a Transportation/School Choice support program.	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Program Exit Date
- Receiving CTDS

## Element Optionality

This table defines whether each element is optional or required depending upon *Operation Code*.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

**Table 66: Support Program Participation Transaction Element Optionality**

Element	Add	Change	Delete

Program Entry Date	R	R	R
<i>Program Exit Date</i>	3	3	X
<i>empty field</i>	X	X	X
<i>empty field</i>	X	X	X
<i>Receiving CTDS</i>	4	4	X

1. A Need is required for some Program Codes but not for all. See *Code Values – Support Programs* for allowable combinations.

**Note:** A Need is always required for a Support Program unless specifically stated otherwise in the Support Programs table.

2. On a "delete" operation, the need will ONLY be deleted if there are no other programs associated with it on the SAIS database.
3. A valid "change" operation might contain NONE of these optional fields because the intent of the "change" could be to eliminate an existing support program exit date.
4. Required only if associated with student's participation in the Transportation/School Choice Program.

## 021 Initial IEP

This transaction applies to Preschool age students or younger. SAIS will only accept *021 Initial IEP* (page 123) transactions for those children who are less than 5 years of age by September 1<sup>st</sup> of the current fiscal year.

IDEA requires for FAPE purposes that we must account for *021 Initial IEP* (page 123) for students less than three years old (pre-preschool) **BEFORE they receive SPED services**. IDEA requires ADE to collect this information from LEA's/schools.

 **Note:** A student may be considered 3 years old if they are within 90 days of their 3<sup>rd</sup> birthday (A.R.S. § 15-771.G).

IDEA requires that the state ensure that each eligible child receive a free, appropriate public education (FAPE) no later than the child's 3<sup>rd</sup> birthday.(USC 300.121, 34 CFR § 300.101(b)) FAPE is not, in all cases, the same as the first service delivery date. Prior to FY2005 when ADE begins collecting this information, Arizona under-reported our success on FAPE for 3 year olds because the SAIS system only had information on children **receiving services** by their 3<sup>rd</sup> birthday.

In addition to the above FAPE requirement, beginning in FY2006, an *021 Initial IEP* (page 123) must be submitted for those students with SPED Service participation who are less than 5 years of age by September 1<sup>st</sup> of the current fiscal year (Preschool exit age validation criteria), This validation will occur in Integrity, but is noted here for information purposes.

Beginning in FY2006, SAIS will accept an *021 Initial IEP* (page 123) Date element in the current fiscal year or one fiscal year prior in the *021 Initial IEP* (page 123) transaction.

Beginning in FY2006, submitters of *021 Initial IEP* (page 123) must indicate if the student was enrolled in an Arizona Early Intervention Program (AzEIP).

### Students not yet on SAIS

Since this transaction collects information on children not yet receiving services, it stands to reason that they will not be in the SAIS database prior to receiving their *021 Initial IEP* (page 123). Therefore, data for these children will require the same considerations as that for "Needs-Only" students (described earlier in this document in *Needs-only students* (page 101). The below box describes how to get a SAIS student identifier (the "SAIS ID") for the children being reported on this *021 Initial IEP* (page 123) transaction.

In most cases the child will not already have been assigned a SAIS student identifier. In these cases, before the *021 Initial IEP* (page 123) may be submitted to ADE, the district must submit a *005 Student Personal Information* (page 54) transaction with an "add" operation. The PI "add" transaction will establish the student on the SAIS database and assign a unique SAIS student identifier for that child.

After the child has been assigned a SAIS ID, use that SAIS ID when submitting the *021 Initial IEP* (page 123) transaction for that child.

### Transaction Elements

The following structure describes the elements in this transaction.

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Initial IEP Date
- Proposed Service Initiation Date
- AzEIP

## Element Optionality

This table defines whether each element is optional or required depending upon Operation Code.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

## Early Childhood

From FY2007 forward, SAIS will begin collecting Early Childhood Program Participation and Early Childhood Preschool Assessment. This additional data requires the creation of two new transaction types – *023 Early Childhood Program Participation* (page 126) and *024 Early Childhood Preschool Assessment* (page 129) respectively.

### 023 Early Childhood Program Participation

*023 Early Childhood Program Participation* (page 126) transaction is designed to capture the elements that are directly related to the Programs in which Preschool students participate.

#### Transaction Elements

The following structure describes the elements in this transaction.

**Table 69: 023 Early Childhood Program Participation Transaction Elements**

Field name	Abbreviated name	Len	Data type	Description	Remarks
Transaction ID	TRANSID	3	I	ID value = 023	
Vendor Defined Field	VENDORFLD	50	S	Free field to be used for any purpose defined by the vendor or submitter (e.g., to hold a vendor-generated submission record identifier); this information will not be stored in SAIS, but will be sent back to the submitter with any system-generated error or warning message	
Operation Code	OPRCD	1	S	A = Add New Preschool Program Participation C = Change Existing Preschool Program Participation information D = Delete a Preschool Program Participation	
Entity ID	ENTITYID	9	S	School identifier; CTDS code, where student is participating in the Preschool program

Program Exit Date	PGMEXITDATE	10	D	The date the student exited the program	
Program Partner ID	PROGPARTID	9	S	School identifier; CTDS code, of district, charter or other agency reporting data on Entity's behalf, OR with which the Entity has a relationship	
Family Income Indicator	FMLYINCIND	1	B	Used for students enrolled in the Even Start or Family Literacy Program to who whether the family is at or below the poverty level	
Living in Household Indicator	LIVHSHLDIND	2	C	FY2008 thru FY2010: Used for students enrolled in the Early Childhood Block Grant Program to determine parental employment status  FY2011: Used for students enrolled in the First Things First (FTF) to determine parental employment status  <i>See Code Values – Early Childhood Block Grant - Living in Household Indicator</i>	
Mother Employment Status	NEWSPECENREND	1	B	Used in conjunction with Living in Household Indicator if living with Mother or Both	
Father Employment Status	OLDTUITPAYRCD	1	B	Used in conjunction with Living in Household Indicator if living with Father or Both	
Adult Education ID	ADULTEDID	10	A	ADE-generated Adult Education identifier. Used in conjunction with Preschool Program types State Family Literacy and Title I Even Start only.	

Field name	Abbreviated name	Len	Data type	Description	Remarks
PPVT III or PALS-PreK Exempt		2	C	Used for students enrolled in the Early Childhood State Family Literacy or Title I Even Start programs who are exempt from taking the PPVT III or PALS-PreK assessment(s).  <i>See Code Values – Early Childhood Preschool Exceptions for Title I Even Start and State Family Literacy</i>	

## Changing Elements

See the section [How To Change Specific SAIS Elements](#) (page 133) at the end of this document for instructions on which transaction should be used to change particular data elements.

The following elements may be changed using this transaction with a "change" operation.

- Preschool Exit Date
- Program Partner ID
- Family Income Indicator
- Living in Household Indicator
- Mother Employment Status
- Father Employment Status
- Adult Education ID
- PPVT III or PALS-PreK Exempt

## Element Optionality

This table defines whether each element is required or optional.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

1. If Preschool Program Type is First Things First (or Early Childhood Block Grant prior to FY2011), then this field is required, otherwise it shall be ignored. *If Preschool Program Type is Early Childhood Block Grant, then this field is required, otherwise it will be ignored.*
2. If Living in Household Indicator is provided, these fields could be required dependant on the value of the indicator.
3. At least one of these elements must be different on SAIS for this to be a valid change
4. If Preschool Program Type is Title I Even Start (or State Family Literacy prior to FY2011), then this field is required, otherwise it shall be ignored.
5. If Preschool Program Type is Title I Even Start (or State Family Literacy prior to FY2011), then this field is optional, otherwise it shall be ignored.

## 024 Early Childhood Preschool Assessment

From FY2007 forward, SAIS will be collecting Early Childhood Assessments. Statutory references include:

- The Arizona Department of Education (Department) will adopt one or a small number of appropriate, comprehensive, valid and reliable assessments for progress monitoring and for measuring outcome indicators in preschool children in any or all early childhood programs administered by the Department. Local educational agencies and their schools will select an allowed assessment and assess the preschool student in order to monitor progress of children and to meet the requirements of the 2004 Individuals with Disabilities Education Improvement Act (IDEA), Part B, Section 619, or to provide accountability data for the State Early Childhood Block Grant (A.R.S. § 15-1251) or to provide accountability data for the State Family Literacy Program (A.R.S. § 15-191.01) and Title 1 Even Start Program (Title 1, Part B, Subpart 3). This adoption is in addition to the two assessments currently required for Title 1 Even Start Programs (Peabody Picture Vocabulary Test and Preschool Assessment of Literacy Skills – Pre-K).

This transaction is designed to capture the elements that are directly related to the Assessment administered to Preschool children.

### Transaction Elements

## Element Optionality

This table defines whether each element is required or optional.

**Note:** When conditions state that a change will be made on SAIS, any changeable field on the submitted transaction that does not contain a value — rather, it contains nulls or spaces — will replace the value on SAIS with nulls.

R: the element is required  
 X: any value in the submitted element will be ignored  
 {blank}: the element is optional; a valid value will be captured in SAIS

2. At least one of these elements must be different on SAIS for this to be a valid change

## How To Change Specific SAIS Elements

"Change" operations – transactions with an Operation Code of "C" – will update data on the SAIS tables. The notable exception to this rule is that a "change" operation will not change an existing Special Enrollment code from a valid value to a blank when a blank is submitted with the change transaction. Every element on the transaction must be submitted, but only those elements with values different from those already on SAIS will undergo the edits described in this document. The following general rules apply to "change" operations for all Student Database transactions except where explicitly noted otherwise.

- All elements on the transaction must be submitted, including empty fields for any optional elements that have no values. SAIS will compare the submitted values to those already on SAIS, and then update the elements that have changed.
- Which elements may be changed depends upon the transaction submitted. They are listed in the section for each transaction titled **Changing Elements**.
- Keys to a database row may not be altered with a "change" operation. The rows containing existing key information must be deleted from the database (by submitting a transaction with a "delete" operation and the old data) and the new key information re-added (by submitting a transaction with an "add" operation and the new data). If SAIS detects that the value for a key field on the "change" operation differs from the value already on SAIS, the transaction will be rejected.
- Start dates, signified by terms such as "start", "begin", "enter", "open", "effective", etc., may not be changed with a "change" operation. Start dates almost always form part of the key to a database row. These can only be changed using the method described above.
- End dates, signified by terms such as "end", "exit", "close", etc.) *usually* may be changed with a "change" operation. Usually, end dates are **not** part of the key to a database row.

As stated in the first bullet item above, every element on the transaction must be submitted. Elements that allow spaces or nulls (such as the student's middle name) may be "blanked out" on SAIS by submitting an empty field (submitting nothing between the "comma" field delimiters – no element delimiters, no values). An example follows.

These are the first 12 elements at the beginning of the *001 Student Enrollment* (page 34) transaction.

**Table 73: First 12 Elements of Student Enrollment**

Element	Data type	Value
Transaction ID	I	001
